I. Description of Operations Financed:

The Office of the Secretary of Defense (OSD) is responsible for policy development, planning, resource management, and program evaluation. The OSD includes the offices of top civilian defense decision-makers concerning personnel, weapons acquisition, research, intelligence, and fiscal policy, as well as offices the Secretary of Defense (SECDEF) establishes to assist in carrying out assigned responsibilities. The OSD includes the immediate offices of the SECDEF and Deputy Secretary of Defense (DEPSECDEF), the Under Secretaries of Defense, the Principal Staff Assistants (PSA), the Executive Support Offices, and other core programs, which are listed below:

OSD Offices/Principal Staff Assistants:

- Immediate Office of the Secretary and Deputy Secretary of Defense
- Assistant Secretary of Defense for Legislative Affairs (ASD(LA))
- Assistant Secretary of Defense for Special Operations Low-Intensity Conflict (ASD(SO/LIC)) & Secretariat for Special Operations (SSO)
- Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency (ATSD(PCLT))
- Assistant to the Secretary of Defense for Public Affairs (ATSD(PA))
- Chief Digital and Artificial Intelligence Officer (CDAO)
- Defense Innovation Unit (DIU)
- Performance Improvement Officer & Director of Administration and Management (PIO/DA&M)
- Director, Cost Assessment and Program Evaluation (D,CAPE)
- Director, Operational Test and Evaluation (D,OT&E)
- DoD Chief Information Officer (DoD CIO)
- Office of General Counsel (OGC)
- Office of the Director of Net Assessment (ODNA)
- Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S))
- Office of the Under Secretary of Defense (Comptroller) (OUSD(C))
- Office of the Under Secretary for Intelligence and Security (OUSD(I&S))
- Office of the Under Secretary for Personnel and Readiness (OUSD(P&R))
- Office of the Under Secretary of Defense for Policy (OUSD(P))
- Office of the Under Secretary of Defense for Research and Engineering (OUSD(R&E))

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

OSD Offices/Principal Staff Assistants Mission Descriptions:

Immediate Office of the Secretary and Deputy Secretary of Defense: Includes the SECDEF and DEPSECDEF as well as their support staff tasked with operating the Department.

Assistant Secretary of Defense for Legislative Affairs (ASD(LA)): The ASD(LA) serves as the PSA and advisor to the SECDEF for DoD relationships with the U.S. Congress and oversees DoD legislative affairs. The ASD(LA) promotes the DoD defense budget and strategy, legislative priorities, and policies to the U.S. Congress. The ASD(LA) priorities support required contracts specializing in critical areas of research and operational requirements necessary to accomplish the LA mission as defined by the Department.

Assistant Secretary of Defense for Special Operations/Low-Intensity Conflict (ASD(SO/LIC)) & Secretariat for Special Operations (SSO): The ASD(SO/LIC) serves as the PSA to the SECDEF for special operations, low-intensity conflict, and special operations-peculiar administrative matters, in accordance with section 922 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2017; section 902 of the NDAA for FY 2021; section 907(a)(2) of the NDAA for FY 2025 ; and sections 138(b)(2)(A) and 139b of Title 10, U.S. Code.

The SSO within the office of ASD(SO/LIC) exercises authority, direction, and control over all special operations-peculiar administrative matters related to the organization, training, and equipping of special operations forces, following the administrative chain of command specified in Section 167(f) of Title 10. Its mission is to shape the future of joint special operations forces (SOF) by fostering partnerships and advancing strategic initiatives that ensure SOF remains optimally organized, trained, equipped, and resourced to address evolving global security challenges. The SSO is focused on the following priorities and functions:

- 1) Design the future SOF force: deliver analytically grounded recommendations on SOF size, structure, posture and capability mix to reestablish deterrence and ensure long-term alignment with strategic threats, missions, and priorities.
- 2) Maximize performance and resilience of SOF personnel: develop policy and guidance to restore the warrior ethos and ensure the recruitment, selection, development, and retention of a highly capable future force.
- 3) Ensure training and readiness meets future needs: evaluate and advocate for readiness standards, training pipelines, and infrastructure to ensure the force is prepared for evolving and dynamic operational requirements.
- 4) Align capability development to strategic priorities: provide policy direction and oversight for special operations-peculiar and irregular warfare capability development. Ensure capability investments are aligned to rebuilding military strength, advancing modernization goals, and delivering real operational value. Clear hurdles to prototyping, experimentation, and fielding.
- 5) Rapidly solves asymmetrical and ambiguous problems, in partnership with interagency and international entities, especially where irregular warfare is central. Prioritizes rapid development of irregular warfare capabilities if they are tied to irregular warfare missions; no other DoD entity is solving it at operational speed; and it can field something faster or more adaptable than formal acquisition programs. It ensures irregular warfare technology development is aligned with national policy as well as operational demand signals.
- 6) Strengthen resource oversight and institutionalize accountability: advance data-driven analysis and tools to enhance fiscal responsibility and ensure resourcing decisions are tracked and aligned to strategic outcomes across the SOF enterprise. SSO priorities and functions grounded in data, performance metrics, and rigorous analysis . The SSO also leverages technology to lead

Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

development of tools and frameworks that enable transparent, measurable oversight and implementation of the SSO initiatives across the organize-train-equip-resource spectrum.

Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency (ATSD(PCLT)): The DoD is committed to executing its mission in a manner that fully respects and protects privacy and civil liberties while promoting increased transparency across the Department and with all external partners and stakeholders. Through policies, practices, training, and governance, ATSD(PCLT) spearheads DoD commitment to becoming the model for protecting privacy and civil liberties and promoting transparency. An integrated PCLT capability that crosses both intelligence and non-intelligence activities, including appropriate independent oversight, is critical to the Department's success. Current funding for the Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency (OATSD(PCLT)) will be used to support traditional mission requirements while simultaneously enabling OATSD(PCLT) to expand its capability to address DoD-wide challenges such as:

- 1) Governance and oversight of the acquisition and use of commercially available information;
- 2) Improved visibility into the identification, reporting, and remediation of loss or compromise to personally identifying information;
- 3) Reduction of DoD-wide FOIA backlog;
- 4) Coordinated independent oversight of intelligence, intelligence-related, and sensitive activities; and
- 5) Improved training of DoD personnel in the areas of privacy, civil liberties, FOIA, intelligence oversight, and the regulatory process, specifically relating to the application of emerging technologies in these areas.

Assistant to the Secretary of Defense for Public Affairs (ATSD(PA)): **Assistant to the Secretary of Defense for Public Affairs (ATSD(PA)):** The ATSD(PA) serves as the PSA and advisor to the SECDEF and DEPSECDEF for DoD news media relations, internal communications, community outreach, public affairs, and audio-visual information. Adherent to SECDEF guidance, the ATSD(PA) is the sole authority for releasing official DoD information to news media representatives and providing Department information to the public, the Congress, and the media. The ATSD(PA) sponsors the DoD Defense.gov website, which is DoD's official website and the starting point for finding U.S. military information online. The ATSD(PA) is the principal spokesperson for the DoD and supports all SECDEF press briefings and responds to all public inquiries to the DoD.

The ATSD(PA) funding supports specialized contracts pursuant to fulfillment of designated responsibilities, which include planning, analysis, non-inherently government functions required for government operations, information technology (IT) operations, administrative, scheduling, and support functions. Funding additionally supports specialized contracts producing the Defense Morning Clips, maintenance and hosting of official websites and information sharing capabilities as directed by the SECDEF's guidance.

Chief Digital and Artificial Intelligence Officer (CDAO): The CDAO's mission is to accelerate DoD adoption of data, analytics, and artificial intelligence (AI) for decision advantage. There are two main goals of this mission: 1) deliver industry's best data, analytics, and AI capability to joint decision makers at speed and scale to enable better, faster decisions and increase lethality and efficiency; and 2) remove systemic barriers to digital technology adoption so DoD innovation can occur with more agility, speed, and impact. The CDAO is responsible for strengthening and integrating data, analytics, AI and machine learning (AI/ML), and digital solutions for the Department. The CDAO team consists of data and AI

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

experts, product managers, and bureaucratic process hackers to rapidly deliver digital capabilities and remove systemic barriers to more agile, data-driven ways of working.

In FY 2026, the CDAO will continue striving to accelerate capability delivery, set the foundation for scale, and facilitate DoD adoption and agility. The CDAO will redouble focus for reducing time to award and increasing opportunity for non-traditional companies through Tradewinds and will accelerate trusted capability into the hands of warfighters and leverage our Nation's competitive advantages in the tech sector. By investing in core infrastructure and services, we are streamlining industry access to DoD contracts, networks, data, and users. By removing barriers through governance, we are enabling repeatable enterprise and local innovation.

The CDAO data resources are critical to maximizing the value data from the boardroom to the battlefield. The resources requested in this budget will enable the CDAO to provide enterprise data management (e.g., developing and issuing required data policies, guidelines, and processes), ensure implementation of the DoD Data Strategy, performance of data governance (e.g., leading DoD Data Council, supporting data issues in other DoD bodies, and engagement with industry, interagency, and international data leaders), and development of a data-enabled workforce in support of the INDSG and section 1513 of the NDAA for FY 2023. Additionally, the CDAO will also use these resources to continue working with PSAs to develop the data access, data quality, processes, and metrics needed to scale analytics at the enterprise level in support of section 1552 of the NDAA for FY 2023. The CDAO will sustain vital joint enterprise services and mission solutions, which includes expanding the enterprise data repository, establishing a responsible AI ecosystem, implementing the AI and Data Accelerator Initiative, and implementing the Data, Analytics, and AI Adoption Strategy. These various lines of effort will support the overarching mission of accelerating the Department's adoption of data, analytics, and AI to preserve decision advantage across the joint force.

Defense Innovation Unit (DIU): The DIU mission is to strengthen U.S. national security by accelerating the adoption of commercial technology throughout the Department while growing the national security innovation community. The DIU partners with organizations across the Federal Government, DoD, intelligence community, and domestic and foreign partners to rapidly prototype, field, and scale commercially derived solutions to meet the most critical operational capability gaps identified by the Department with the focus, speed, and scale required to help deter major conflict and win if forced to fight. With offices in Silicon Valley, Boston, Austin, Chicago, and the Pentagon, DIU is able to attract the best and brightest talent and cutting-edge solutions.

The DIU operating budget supports the organization's role as a PSA and advisor to the SECDEF and DEPSECDEF and supports DoD's initiatives to build enduring advantages across the defense ecosystem - the DoD, defense industrial base, and array of private sector enterprises and academia that create and sharpen the joint force's technological edge, with a focus on innovation and rapid adjustment to new strategic demands.

In addition to supporting core DIU functions, the requested funding supports operational requirements for IT, due diligence and business intelligence software licenses, travel, and administrative functions for the National Security Innovation Network and National Security Innovation Capital programs.

I. Description of Operations Financed: (Cont.)

The Performance Improvement Officer & Director of Administration and Management (PIO/DA&M): The PIO/DA&M is the Performance Improvement Officer of the DoD and the Director of Administration and Management. The PIO/DA&M has been designated by the SECDEF as the DoD PIO, Defense Reform Lead, and the PSA to the SECDEF and DEPSECDEF for organizational and management matters. The PIO/DA&M is responsible for the preparation of the Department's Strategic Management Plan, assisting the SECDEF in ensuring the mission and goals of the Department are achieved through strategic and performance planning and the regular assessment of progress using executive analytics to improve results.

The PIO/DA&M oversees the Pentagon Reservation, including all construction, renovation, facility operations, maintenance, and security; provides administrative, personnel, and budget support to the Office of the Secretary of Defense (OSD), select Defense Agencies, and DoD personnel assigned to the National Capital Region (NCR); and exercises the authority, direction, and control over the Directors of the Pentagon Force Protection Agency (PFPA) and Washington Headquarters Services (WHS).

Key activities conducted in the Office of the PIO/DA&M include:

- Representing the Department in the Office of Management and Budget's Performance Improvement Council.
- Overseeing Information Management and Technology for OSD.
- Serving as both the senior official for Information Management and Technology and Chief Information Officer for OSD to manage the OSD IT Enterprise.
- Overseeing and facilitating control, processing, and archiving of SECDEF, DEPSECDEF, and DoD Executive Secretary correspondence.
- Providing support to senior governance venues (e.g., Deputy's Workforce Council, Deputy's Management Action Group (DMAG), Large Group, etc).
- Chairing the Defense Performance Improvement Council, a supporting tier of governance for the DMAG.
- Developing and implementing the Department's Enterprise Risk Management Framework.
- Coordinating matters pertaining to the accession and departure of key senior DoD personnel and serves as the DoD Transition Director (designated senior career official for transition, as required by statute).
- Serving as DoD-wide liaison with the Government Accountability Office for high risk and audit recommendations' management; supports the Office of the DoD Inspector General (IG) in follow-up activities for the IG Compendium; and Top Management Challenges.
- Supporting the DEPSECDEF participation in the President's Management Council.
- Developing, managing, and implementing policies and procedures for the DoD Special Access Program.
- Providing support to the Defense Business Board.
- Serving as the DoD representative to the National Capital Planning Commission.
- Representing the Department as the sponsor for the Defense Management Institute.
- Supporting the Department's compliance with Evidence Act Title I statutory requirements.

I. Description of Operations Financed: (Cont.)

Director, Cost Assessment and Program Evaluation (D,CAPE): The D,CAPE provides the SECDEF and other DoD senior leaders non-advocate, unbiased, and fact-based decision support on the size, shape, affordability, disposition, and readiness of the future joint force to achieve the INDSG. This includes analyzing the Defense Program by leading strategic portfolio reviews and the annual program review, supporting the acquisition process by providing senior acquisition executives with independent cost estimates as well as guidance and sufficiency reviews of Analyses of Alternatives and leading DoD's analytic and cost communities. The D,CAPE funds analyses that inform cost estimating, long range planning, developing, and maintaining a database of actual operating and support costs for major weapons systems, requirements for strategic portfolio reviews, and developing the analytic community within DoD. Through studies and analyses, the D,CAPE offers tradeoffs and alternatives and assesses best practices and affordability options to modernize capabilities effectively to advance national strategy. These analyses are groundbreaking, comprehensive, and data-driven to explore capabilities that improve the force's lethality. Resources support key priorities such as: the Analysis Working Group, rebuilding military readiness, campaign analysis, force planning analysis, and reforming DoD business practices. Through competitive sourcing and consolidation, the D,CAPE continues to optimize spending on contracts and contract personnel supporting those efforts. Overall resources are balanced to support competing demands such as the modernization of the D,CAPE analytic and business IT systems, congressionally-mandated studies, SECDEF priorities, continuing strategic reviews, and strategic and warfighting analyses as prioritized by the DEPSECDEF and the Vice-Chairman of the Joint Chiefs of Staff (VCJCS).

The activities include:

- 1) Long Range Planning
- 2) Cost Estimating and Program Evaluation Economic Research
- 3) Strategic, C4, and ISR Programs
- 4) Conventional Forces Analytical Support
- 5) Readiness and Force Employment Analysis
- 6) Irregular Warfare, Mobility Capability, and Force Projection Analyses
- 7) Force Structure, Weapons Systems, and Warfighting Analysis
- 8) Support for Strategic Analysis and Campaign Analysis
- 9) Industrial Base Assessments
- 10) Enterprise Data Initiatives
- 11) Cost Data Support Group
- 12) Manpower Analysis
- 13) Modeling and Simulation
- 14) Programmatic and Budgetary Data Requirements
- 15) Enterprise Visibility and Management of Operating and Support Cost (EVAMOSC)

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

Director, Operational Test and Evaluation (D,OT&E): Section 139 of Title 10, U.S. Code, requires the D,OT&E to prescribe policies and procedures for the conduct of operational test and evaluation in DoD. The D,OT&E monitors and reviews all operational tests to confirm operational effectiveness and suitability of the defense system in combat use. Additionally, the D,OT&E supports mission-essential headquarters travel and hosting of the D,OT&E public-facing website.

DoD Chief Information Officer (DoD CIO): The DoD CIO is the PSA and advisor to SECDEF and DEPSECDEF for IT, including national security systems and information resources management (IRM) matters. The DoD CIO is responsible for all matters relating to the DoD information enterprise. The DoD CIO develops Department-wide strategy and policy on DoD IT and information systems. In direct support of the INDSG, DoD CIO develops and promulgates enterprise-wide architecture requirements, and technical, operational, protection and interoperability standards. Additionally, DoD CIO ensures interface continuity between DoD and non-DoD systems.

The DoD CIO activities support the modernization and development of advanced IT capabilities which directly enhances resiliency by focusing attention on modernizing key information capabilities and ensuring that DoD maintains an advantage over adversaries in the areas of cybersecurity, information, and communications technology. The DoD information enterprise and systems resource management activities include: 1) command, control, and communication (C3), including positioning, navigation, and timing (PNT) policy and spectrum management; 2) E-Gov initiatives and government-wide councils; and 3) software modernization (development, security, operation), including cloud computing.

Office of General Counsel (OGC): The OGC is headed by the DoD General Counsel. Appointed by the President with the advice and consent of the Senate, the General Counsel is, by law, the Chief Legal Officer of the DoD, in accordance with section 140 of Title 10, U.S. Code. The DoD General Counsel shares direct legal responsibilities and functions with the Defense Legal Services Agency (DLSA) and is responsible for, but not limited to, the following functional areas:

- Provides advice to the SECDEF and DEPSECDEF regarding all legal matters and services performed within, or involving, the DoD.
- Directs legal services performed within DoD, including determining the adherence of DoD attorneys to appropriate professional standards.
- Serves in two capacities: as DoD General Counsel and as the Director of DLSA, a DoD agency that provides legal advice and services for the Defense Agencies, DoD Field Activities, and other assigned organizations.

Office of the Director Net Assessment (ODNA): The ODNA provides SECDEF, DEPSECDEF, DoD, Military Services, and CCMDs with comparative analyses of military, technological, and other factors affecting the military capability of the United States and other nations, with the goal of identifying emerging problems and opportunities that deserve the attention of senior defense officials. These analytical techniques are essential to diagnosing the most critical elements of short- and long-term strategic competition and understanding their implications, strategic risks, and opportunities. These techniques provide highly valued analytical insights to senior DoD leaders, drawing on expertise and resources not available within the DoD. This research differs in character and focus from other DoD research programs, which are concerned with issues of current or near future policy.

I. Description of Operations Financed: (Cont.)

Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)): The OUSD(A&S) is the PSA and advisor to SECDEF and DEPSECDEF for all matters relating to acquisition and sustainment in DoD. The primary responsibilities of OUSD(A&S) include serving as DoD' chief acquisition and sustainment officer with the mission of enabling the delivery and sustainment of secure and resilient capabilities to the warfighter and international partners quickly and cost effectively. The OUSD(A&S) is also responsible for establishing policies and supervising all elements of acquisition, sustainment, the defense industrial base, and modernization of the nuclear forces. The OUSD(A&S)'s major activities include Readiness and Environmental Protection Initiative (REPI), Logistics Systems Modernization (LSM) support, Native American Lands Environmental Mitigation Program (NALEMP), Global Investments and Economic Security (GIES), APEX Accelerators, and Chemical and Biological Weapons Elimination (CBWE) support program.

Other OUSD(A&S) 's activities include:

- 1) Acquisition Program Support Systems
- 2) Acquisition Integration and Interoperability (AI2)
- 3) Acquisition Innovation
- 4) Acquisition Visibility
- 5) Contracting Enablers, Initiatives, and Pricing
- 6) Chief Financial Officer Act Compliance
- 7) Chemical Biological Weapons Program Support
- 8) Contracting E-Business Capabilities
- 9) Core Services
- 10) Cost Effective Material Readiness
- 11) Cyber Integration
- 12) Defense Installation Data Infrastructure (DISDI)
- 13) Defense Management Initiatives (DMI)
- 14) DoD Legacy Program
- 15) DoD Siting Clearinghouse
- 16) Emerging Contaminants
- 17) Energy Office
- 18) Environmental Safety and Occupational Health (ESOH)
- 19) Environmental Resiliency
- 20) FFRDC Oversight
- 21) Committee on Foreign Investment in the United States (CFIUS)
- 22) Human Capital Initiatives (HCI)
- 23) Installation & Environment Business Enterprise Integration

- 31) Quick Reaction Special Projects (QRSP)
- 32) Small Business Program Support
- 33) Threat Reduction and Arms Control

Office of the Under Secretary of Defense (Comptroller) (OUSD(C)): The OUSD(C) is the PSA to the SECDEF for budgetary and fiscal matters, including financial management, accounting policy and systems, audit and audit remediation, management control systems, budget formulation and execution, and data analytics. The OUSD(C) is responsible for managing the review, formulation, presentation, and execution of the budget for the DoD. In doing so, the OUSD(C) works to achieve economy and efficiency in DoD operations through sound business judgment and effective fiscal planning and control. The OUSD(C) ensures DoD leaders have access to high quality, timely, and analyzed data for decision-making through a business framework that simplifies processes, standardizes systems and information, and promotes financial policies and internal controls. This framework supports effective and efficient financial management operations with a focus to achieve and sustain unmodified (or clean) audit opinions across the Department. In support of DoD's financial management workforce, the OUSD(C) develops and sustains developmental programs including the DoD Financial Management Certification Program. The activities include: Comptroller initiatives, administrative support; and the Next Generation Resource Management System.

Office of the Under Secretary for Intelligence and Security (OUSD(I&S)): The OUSD(I&S) is the PSA and advisor to the SECDEF and DEPSECDEF regarding intelligence, counterintelligence, security, law enforcement, sensitive activities, and other intelligence-related matters. The budget also supports OUSD(I&S)'s role in exercising the SECDEF's authority, direction, and control over and oversight of the Defense Agencies and DoD Field Activities that are defense intelligence, counterintelligence, law enforcement, or security components and exercises planning, policy, and strategic oversight over all defense intelligence, counterintelligence, law enforcement, and security policy, plans and programs.

In addition to the Military Intelligence Program (MIP) Management and Activities of the OUSD(I&S) operating budget, funding is provided for:

- The Defense Military Deception Program Office, which provides governance, oversight, and operational implementation of military deception planning and execution capabilities across the DoD, including sensitive messaging, deception, influence, and other operations in the information environment.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

- The OSD Red Team, which serves as the SECDEF's and DEPSECDEF's red team by providing insights on adversaries' highest-level perspectives and potential actions to inform strategic-level DoD activities. The Red Team's adversary-centric insights augment, complement, and are separate and distinct from other established channels of military advice or finished intelligence products and analysis provided to the SECDEF, DEPSECDEF, and the DoD components. The Red Team's most valuable resource is its mix of operational and intelligence experts who bring distinct knowledge and skills not found elsewhere in DoD by providing exquisite insight to ensure adversary calculus and military responses are factored into deterrence and denial strategies.
- The Influence and Perception Management Office (IPMO), which is the OUSD(I&S) center of gravity for efforts to deliberately influence foreign defense and intelligence entities to behave in ways that benefit U.S. defense-related strategic interests. The IPMO integrates, matures, and operationalizes oversight, governance, and execution of cross-cutting influence activities. The IPMO's activities include the development of thematic influence guidance and integrated influence strategies, oversight of intelligence support to operations in the information environment, oversight and governance of deception activities, oversight and governance of deliberate conceal and selective reveal of strategic defense capabilities, and management of designated compartmented programs.
- The Strategy Coordination Program Office (SCPO), which performs critical analyses and assessments for a variety of military, technical, and scientific programs, issues, and topics. The program coordinates among the Military Departments, CCMDs, and other U.S. Government departments and agencies, leveraging the whole-of-government enterprise through strategy coordination cells that provide tailored analyses, prioritized assessments, and recommended strategies to mitigate identified risks.
- The Counterproliferation of Weapons of Mass Destruction (CP/WMD) Office, which serves as the senior advisor to the USD(I&S) for understanding threats from biothreat/biotechnology and WMD. The office leads, coordinates, and integrates strategic defense intelligence initiatives to counter the proliferation of adversary biothreats and biotechnologies and WMD as well as the associated delivery systems and related technologies across the Defense Intelligence Enterprise.
- Advanced Intelligence Capabilities (AIC), which reports directly to the DEPSECDEF and the Principal Deputy Director of National Intelligence and synchronizes efforts across the Department and with other Federal departments and agencies to detect, identify, and attribute objects of interest in, on, or near military installations, operating areas, training areas, special-use airspace, and other areas of interest, and, as necessary, to mitigate any associated risks to the safety of operations and national security. This includes anomalous, unidentified space, airborne, submerged, and transmedium objects.
- The Law Enforcement Oversight and Compliance Directorate, which serves as the senior advisor to the USD(I&S) for law enforcement policy and provides oversight of the law enforcement community. The Directorate leads, coordinates, and integrates law enforcement initiatives to bolster standards and training of law enforcement officers, improve care and utilization of working dogs, strengthen the high-risk personnel program, and other related programs across the law enforcement community.

Office of the Under Secretary for Personnel and Readiness (OUSD(P&R)): The OUSD(P&R) is the PSA and advisor to the SECDEF for:

- Manpower and reserve affairs, including the recruitment and retention of both civilian and uniformed personnel
- Reserve Component matters
- Military family, childcare, spouse employment, and community matters
- Provision and delivery of health care to the Force and the management and oversight of the Military Health System via oversight of

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

- the Defense Health Agency
- Force readiness issues, including operational and strategic readiness
- Education and training
- Safety and occupational health
- Suicide prevention
- Force resiliency
- Prevention of and response to problematic and violent behaviors, including sexual assault
- DoD Drug Demand Reduction Program
- DoD Dependent Schools via oversight of the Department of Defense Education Activity
- Commissaries and exchanges
- Non-appropriated fund activities, including Morale, Welfare, and Recreation activities
- Civil Military Programs, which include the National Guard Youth Challenge Program, STARBASE, and Innovative Readiness Training
- Resource allocation for interagency and intergovernmental activities, studies, special projects, and external requests that require DoD civilian and military personnel
- Collaboration with the Department of Veterans Affairs

The OUSD(P&R) also oversees the preparedness of the Total Force to execute the INDSG, and National Military Strategy (NMS), to include the development of policies, plans, and tools for the reporting of readiness levels and analysis of the impacts of Department decisions on readiness; military education and training of Service members and units to execute assigned missions; and force safety and occupational health risk mitigation.

The OUSD(P&R) mission is critical to advancing lethality and promoting meritocracy across the civilian and uniformed enterprises. The OUSD(P&R) is committed to ensuring a merit-based force, free of harmful diversity, equity, and inclusion influence and activities. The organization is leading the way toward cultivating a pipeline of strong civilian employees and uniformed personnel by investing in, building, and cultivating a talent pool with the requisite technical and leadership skills needed to drive results in functional areas, business units, and across DoD. This involves overseeing the Department's personnel initiatives (e.g., Deferred Resignation Program and Voluntary Early Retirement Authority) to advance the President's directives and SECDEF's intent, optimizing the workforce in support of our core warfighting mission, and cultivating a more ready, lethal, and effective fighting force.

Office of the Under Secretary of Defense for Policy (OUSD(P)): The OUSD(P) is the PSA and advisor to the SECDEF and DEPSECDEF on capabilities, force, and contingency plans necessary to implement the INDSG, defense policy, and the integration and oversight of DoD policy and plans to achieve national security objectives. The OUSD(P) represents the DoD to foreign governments, international organizations, and interagency functions. The OUSD(P) funding supports mission requirements to consistently provide responsive, forward-thinking, and insightful policy advice and support to the SECDEF and the DoD in alignment with national security objectives.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

OUSD(P) core mission areas include:

Indo-Pacific Security Affairs (IPSA) - The ASD(IPSA) is the principal advisor to the USD(P) and SECDEF on international security strategy and policy on issues of DoD interest that relate to the nations and international organizations of the Asia-Pacific, its governments, and defense establishments and for oversight of security cooperation programs, including foreign military sales, in the region.

Homeland Defense and Hemispheric Affairs (HDHA) - The mission of the OASD(HDHA) is to provide policy and planning oversight for DoD homeland defense and mission assurance, defense support of civil authorities, Arctic policy, and Western Hemisphere affairs matters. Advances and represents priority issues with U.S. interagency partners; U.S. Congress; allies and partners; U.S. state, local, territorial, and tribal governments; and private sector organizations.

International Security Affairs (ISA) - The ASD(ISA) is the principal advisor to the USD(P) and the SECDEF on international security strategy and policy on issues of DoD interest that relate to the nations and international organizations of Europe (including the North Atlantic Treaty Organization (NATO)), the Middle East, and Africa, their governments and defense establishments, and for oversight of security cooperation programs and foreign military sales programs in these regions.

Space Policy (SP) - The ASD(SP) is the senior official responsible for the overall supervision of DoD policy for space warfighting under the authority, direction, and control of the USD(P). In addition, ASD(SP) is responsible for interagency coordination and international engagement on space policy and strategy.

Cyber Policy (CP) - The ASD(CP) establishes and oversees the implementation of DoD cyberspace policy and strategy; integrates national cyberspace policy and guidance with DoD cyberspace policy and provides guidance and oversight on DoD cyberspace activities as they relate to foreign cyberspace threats, international cooperation, engagement with foreign partners and international organizations; and implementation of DoD cyberspace strategy and plans, including those related to cyberspace forces, capabilities, and their employment.

Strategy, Plans, and Capabilities (SPC) - The ASD(SPC) serves as the principal civilian advisor to the USD(P) and SECDEF on national security and defense strategy and capabilities, force, and contingency plans necessary to implement the defense strategy. The ASD(SPC) is also responsible for policy management and advisory responsibilities for the following offices: Global Partnerships; Plans and Posture; Force Development and Emerging Capabilities; Strategy; and the Defense Security Cooperation Agency.

OUSD(P) major program activities include:

1. OUSD(P) Operations
2. OUSD(P) Mission Support
3. U.S. Mission to NATO
4. Rewards Program
5. Office of the Principal Cyber Advisor

**Office of the Secretary of Defense

6. Ex Gratia Program
7. Military Information Support Operations
8. Anomalous Health Incidents
9. Vietnam Dioxin Remediation

Office of the Under Secretary of Defense for Research and Engineering (OUSD(R&E)): The OUSD(R&E) is the PSA and advisor to the SECDEF and DEPSECDEF for all matters relating to research and engineering and other related matters. The OUSD(R&E) serves as the DoD's Chief Technical Officer and is responsible for unifying defense research, development, and prototyping activities across the enterprise. The OUSD(R&E) establishes policies on, and oversees, all defense research and engineering, technology development, technology transition, prototyping, experimentation, and development testing activities and programs. The OUSD(R&E) responsibilities also include: establishing a Department-wide, mission-focused roadmap for each of the critical technology areas strategies; developing and implementing a National Defense Science and Technology Strategy; leading the establishment and implementation of Department-wide protection methodologies that mitigate the risk of loss of critical technologies to determined adversaries; initiating critical prototypes within the OUSD(R&E) identified capability thrust priorities; developing policy and guidance for DoD Mission and Enterprise Architectures; establishing Open Architecture Standards, piloting alternate rapid acquisition approaches; and ensuring the integration of developmental and operational test and evaluation in coordination with DOT&E.

The OUSD(R&E) activities include:

- 1) Defense Industrial Base Cyber Security
- 2) Developmental Test and Engineering
- 3) Mission Capabilities and Systems Engineering
- 4) Research, Development, Test, and Evaluation Oversight
- 5) Strategic Technology Protection and Exploitation Cyber Resiliency Initiative
- 6) Wargaming Incentive Fund
- 7) War Fighting Lab Incentive Fund
- 8) Office of Strategic Capital

Strategic Capabilities Office (SCO): Established as a new PSA in FY 2025, the SCO mission is to develop and transition capabilities to counter near-peer adversaries in all phases of competition and conflict through leveraging near-term technologies and/or the unconventional use of existing programs to field disruptive capabilities that create new strategic effects (deterrence, power projection, cost imposition, surprise, and overmatch). SCO develops, demonstrates, and transitions operationally impactful capabilities to increase the lethality of the joint force in contested environments. The SCO serves as the senior advisor to the SECDEF and DEPSECDEF augmenting efforts within the Department with respect to strategic capabilities development and advise on the identification, analysis, and introduction of disruptive applications and new and

Fiscal Year (FY) 2026 Budget Estimates**

I. Description of Operations Financed: (Cont.)

unconventional uses of existing systems and near-term technologies, for both U.S. Government and commercial capabilities, to create operational strategic effects.

Test Resource Management Center (TRMC): A field activity under the purview of the OUSD(R&E), TRMC ensures the Department has the necessary capabilities to test weapon systems that are currently in development. Mandated by Congress in the NDAA for FY 2003, TRMC governs and assesses the adequacy of DoD's Test and Evaluation (T&E) infrastructure to support the development, acquisition, fielding, and sustainment of defense systems; reviews and certifies proposed Service and Defense Agency T&E budgets for adequacy; and formulates and maintains a strategic plan for T&E resources to ensure they align to the INDSG.

Capital Security Cost Sharing (CSCS): The CSCS supports DoD's critical component of building relationships with other partners and allies and funds the DoD share of the Department of State CSCS and Maintenance Cost Sharing program as authorized by section 604 of the Secure Embassy Construction and Counterterrorism Act of 1999. The CSCS also funds the Department's share of the CSCS International Cooperative Administrative Support Services pass through. The CSCS funding supports more than 86,000 U.S. Government employees from more than 30 agencies at over 280 locations worldwide. Together with interagency contribution from the CSCS program and other reimbursements, the funding provides the necessary resources for New Embassy Compound (NEC) projects as well as site acquisitions at locations where NEC projects are planned in the future. Additionally, the request supports the maintenance, repair, and renovation of existing office and support (non-residential) facilities that are occupied by multiple agencies. These projects also address security deficiencies and include major security upgrades as part of the larger rehabilitation projects.

The FY 2026 request includes \$2,093,717 thousand of discretionary and \$430,490 thousand of mandatory (reconciliation) for a total of \$2,524,207. The mandatory request funds Deployable Test and Evaluation for All-Domain, Attributable Autonomous Systems (TRMC), Range/Test & Evaluation Improvements (DoD CIO), Golden Dome Cybersecurity (OUSD(A&S)), Office of Strategic Capital (OUSD(R&E)), and classified programs (DIU and OUSD(A&S)). Further information for this reconciliation request is provided in Sections 20002, 20003, 20004, and 20005 of the Reconciliation Exhibit. FY 2026 funding for homeland territorial integrity and security is included in Reconciliation Exhibit Section 20011: Homeland Border Security Initiatives.

As a result of system limitations at the time of submission, the budget exhibit does not accurately reflect the transfer of discretionary funding to mandatory funding for OSC (\$95,349). The Defense-Wide O-1 will represent the correct aggregate budget totals for OSD O&M.

The FY 2026 request includes \$2,093,717 thousand of discretionary and \$430,490 thousand of mandatory (reconciliation) for a total of \$2,524,207. The mandatory request funds Deployable Test and Evaluation for All-Domain, Attributable Autonomous Systems (TRMC), Range/Test & Evaluation Improvements (DoD CIO), Golden Dome Cybersecurity (OUSD(A&S)), Office of Strategic Capital (OUSD(R&E)), and classified programs (DIU and OUSD(A&S)). Further information for this reconciliation request is provided in Sections 20002, 20003, 20004, and 20005 of the Reconciliation Exhibit. FY 2026 funding for homeland territorial integrity and security is included in Reconciliation Exhibit Section 20011: Homeland Border Security Initiatives.

Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

1) Mission Support - Transfer from DARPA for DoD-Wide Consolidated Audit - OUSD(C) \$7,159
Increase reflects funding transferred from the DARPA to the OSD for the OUSD(C) to properly align the resources to support including DARPA in the DoD-wide consolidated financial statement audit.
(FY 2025 Baseline: \$140,637 thousand)

b) Transfers Out.....\$0

8. Program Increases\$443,304

a) Annualization of New FY 2025 Program\$0

b) One-Time FY 2026 Increases\$0

c) Program Growth in FY 2026 \$443,304

1) Compensation and Benefits - Office of Force Resiliency (OFR) Transfer from DHRA to OUSD(P&R)\$963
Transfer of +4 FTEs and associated funding realigns oversight and management of Diversity, Equity, Inclusion and Accessibility (DEIA) policy from Defense Human Resources Activity (DHRA) to OUSD(P&R)'s Office of Force Resiliency (OFR), Office for Civil Rights and Equal Opportunity Policy (OCREOP).
(FY 2025 Baseline: \$51,101 thousand; 205 FTEs; +4 FTEs)

2) Compensation and Benefits - Office of Strategic Capital (OSC) - OUSD(R&E) \$16,856
Increase of +70 FTEs and associated funding for the Office of Strategic Capital to reach full operational capability (FOC). The objective is to help companies access the capital they need to grow from prototypes to scaled production. The work of OSC is consistent with the Department's legacy of supporting the technological innovation that has led to American economic prosperity and strong defense capabilities.
(FY 2025 Baseline: \$66,655 thousand; 250 FTEs; +70 FTEs)

3) Compensation and Benefits - Warfighter Applications and Enablers - CDAO..... \$3,000
Increase of +12 FTEs and associated funding supports data integration and layer/mission command application and for the Advancing Data and Artificial Intelligence Initiative.
(FY 2025 Baseline: \$47,774 thousand; 215 FTEs; +12 FTEs)

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

- 4) Compensation and Benefits - Administrative Bench Augmentation - OUSD(R&E) \$6,599
Increase of +25 FTEs to develop new skills within the OUSD(R&E) civilian workforce while addressing the inherently governmental nature of the mission sets under its purview. The OUSD(R&E) is insourcing internal resources to support Planning, Programming, Budgeting, and Execution (PPBE), audit readiness, data analytics, performance improvement, and congressional, legislative, and acquisition support.
(FY 2025 Baseline: \$45,790 thousand; 170 FTEs; +25 FTEs)
- 5) Compensation and Benefits - Alignment of SAPCO resources from OUSD(A&S) to PIO/DA&M \$5,456
Increase of +22 FTEs reflects the realignment of SAPCO resources from the OUSD(A&S) to the PIO/DA&M in accordance with guidance from the Deputy Secretary of Defense, signed August 30, 2023.
(FY 2025 Baseline: \$26,162 thousand; 117 FTEs; +22 FTEs)
- 6) Compensation and Benefits - Audit Support - OUSD(C) \$982
Increase of +4 FTEs to provide oversight of audits across the DoD and track government property to support DoD progress toward achieving an unqualified audit opinion.
(FY 2025 Baseline: \$50,908 thousand; 231 FTEs; +4 FTEs)
- 7) Compensation and Benefits - Classified - OUSD(I&S) \$780
Increase of +3 FTEs for classified program requirements within the OUSD(I&S).
(FY 2025 Baseline: \$61,473 thousand; 248 FTEs; +3 FTEs)
- 8) Compensation and Benefits - Critical Priorities - DIU \$6,599
Increase of +25 FTEs supports increased DIU required activities including Replicator, PACOM Joint Mission Accelerator, Defense Innovation Steering Group, Defense Innovation Community of Entities (DICE), and international partnerships (INDUSx, AUKUS, etc). The increase in personnel enables DIU expansion into several commercial and technology driven hubs (Austin, Boston, and Chicago) in support of DIU 3.0 efforts.
(FY 2025 Baseline: \$10,775 thousand; 51 FTEs; +25 FTEs)
- 9) Compensation and Benefits - DoD Workforce Framework (DWF) Sustainment - DoD CIO \$2,649
Increase of +11 FTEs to expand and implement the DWF to all functional communities within the DoD, to include work role development, mapping, and coding; sustainment requires verification that work roles comply with DoD and industry standards.
(FY 2025 Baseline: \$25,798 thousand; 99 FTEs; +11 FTEs)

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

10) Compensation and Benefits - Functional FTE Transfer - OUSD(P)	\$528
Increase of +2 FTEs reflects the realignment from ASD(SO/LIC) to the OUSD(P) for personnel inappropriately assigned to ASD(SO/LIC) & SSO after the separation from OUSD(P) in FY 2025. (FY 2025 Baseline: \$96,295 thousand; 381 FTEs; +2 FTEs)	
11) Compensation and Benefits - Human Resources Office Civilian Workforce - CDAO.....	\$6,989
Increase of +30 FTEs to recruit, develop, and retain a mission ready workforce to accelerate adaptation of data, analytics, and AI technologies across DOD. (FY 2025 Baseline: \$49,306 thousand; 221 FTEs; +30 FTEs)	
12) Compensation and Benefits – Oversight and Effectiveness - OUSD(I&S)	\$3,750
Increase of +15 FTEs to improve oversight and mission effectiveness. This also reflects insourcing of contractor positions that were determined more appropriately performed by government personnel. (FY 2025 Baseline: \$61,473 thousand; 248 FTEs; +15 FTEs)	
13) Compensation and Benefits - PPBE Reforms.....	\$8,187
Increase of +34 FTEs to CAPE (+5) and OUSD(C) (+29) for additional contract support to mitigate workload demands on the CAPE staff in response to challenges documented in the Interim Report of the Commission on PPBE Reform, streamline analytic work flows, and improve both internal and external communications. (FY 2025 Baseline: \$92,691 thousand; 395 FTEs; +34 FTEs)	
14) Compensation and Benefits - Principal Staff Assistants for Law Enforcement - OUSD(I&S).....	\$4,334
Increase of +18 FTEs and associated funding provides OUSD(I&S) support to implement direction contained within the Deputy Secretary of Defense memo dated 21 April 2023, designating OUSD(I&S) as the Principal Staff Assistant for Law Enforcement. This increase supports developing, implementing, and integrating DoD Law Enforcement (LE) policy, mission objectives, training requirements, operating guidance, and resourcing of LE activities. (FY 2025 Baseline: \$59,191 thousand; 232 FTEs; +18 FTEs)	
15) Compensation and Benefits - SCO Workforce - OUSD(R&E)	\$2,640
Increase of +10 FTEs to build and deliver joint, full-spectrum, cross-domain capabilities for the Department that will strengthen deterrence against China and Russia. (FY 2025 Baseline: \$58,834 thousand; 220 FTEs; +10 FTEs)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

16) Compensation and Benefits - Support for Priority Initiatives - OUSD(P&R)	\$1,544
Increase of +7 FTEs supports four priority initiatives and enhancements; DRRS Implementation Office, Trusted Advisor Initiative, National Mobilization Initiative, and Flexible Spending Account Benefit Initiative. (FY 2025 Baseline: \$52,036 thousand; 209 FTEs; +7 FTEs)	
17) Compensation and Benefits - Transfer of Biometrics & Forensics Responsibilities - OUSD(I&S)	\$260
Increase of +1 FTE reflects the transfer of personnel from OUSD(R&E) to the OUSD(I&S) to address the additional workload associated with increased mission of Defense Biometrics and Defense Forensics. (FY 2025 Baseline: \$61,473 thousand; 248 FTEs; +1 FTEs)	
18) Compensation and Benefits - Transfer of Campaign Decision Support Team - D,CAPE	\$1,164
Increase of +5 FTEs the transfer of the Campaign Decision Support Team (CDST) from the PIO/DA&M to the People's Republic of China (PRC) Competition Assessment Team (PCAT) in accordance with direction from the SECDEF signed July 26, 2024. (FY 2025 Baseline: \$41,715 thousand; 169 FTEs; +5 FTEs)	
19) Compensation and Benefits – Workforce Adjustment	\$30,582
Increase of +127 FTE and associated funds are due to improved hiring practices allowing current billets to be filled at a more efficient rate. (FY 2025 Baseline: \$622,821 thousand; 2,586 FTEs; +127 FTEs)	
20) Mission Support - Alignment of SAPCO resources from OUSD(A&S) to PIO/DA&M – PIO/DA&M.....	\$4,142
Increase reflects the transfer of DoD Special Access Program Central Office (SAPCO) resources from the OUSD(A&S) to the PIO/DA&M. These funds support the transferred FTEs. (FY 2025 Baseline: \$27,257 thousand; 0 FTEs; +0 FTEs)	
21) Mission Support - ASD Sustainment - OUSD(A&S).....	\$5,100
Increase provides funding to support existing sustainment activities and expanded innovative capabilities. +\$3,000 thousand for Product Life-Cycle Sustainment +\$2,100 thousand for Cost Effective Material Readiness. (FY 2025 Baseline: \$634,029 thousand)	
22) Mission Support - Biometrics & Forensics Responsibilities - OUSD(I&S)	\$1,120
Increase provides additional resources to address the additional workload associated with its increased mission of Defense Biometrics and Defense Forensics. These funds support the transferred FTEs. (FY 2025 Baseline: \$129,023 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

23) Mission Support - Buydown of IT Technical Debt - OSD	\$7,493
Increase of funds supports buydown of IT technical debt across the Department with emphasis on deferred investments which improve end-user experience. Application of funds will be directed to technical debt and technical refresh, digital modernization, cybersecurity, Zero Trust, and cloud transition efforts. (FY 2025 Baseline: \$2,197,103 thousand)	
24) Mission Support - Centrally Managed Must Funds Bills - OSD	\$49,210
The increase reflects the realignment of funds from the PSAs to the OSD Corporate Account to create efficiencies through centrally managing government-wide must fund bills as follows: PIO/DA&M (-\$100 thousand), DoD CIO (-\$3,668 thousand), OUSD(A&S) (-\$41,906 thousand), OUSD(C) (-\$318 thousand), OUSD(I&S) (-\$2,252 thousand), and OUSD(R&E) (-\$966 thousand). (FY 2025 Baseline: \$2,197,103 thousand)	
25) Mission Support - CFO Act Compliance - OUSD(A&S)	\$1,900
Increase supports additional Financial Improvement and Audit Report (FIAR) requirements to remediate property accountability and accountable property systems of record (APSR) gaps aligned to the DoD-wide material weakness in support of Title X, Section 1005a and NDAA Section 142 and pursuit of an unqualified audit opinion. (FY 2025 Baseline: \$634,029 thousand)	
26) Mission Support - Classified 1 - CDAO	\$5,003
Classified program increase. (FY 2025 Baseline: \$385,576 thousand; 0 FTEs; +0 FTEs)	
27) Mission Support - Classified 2 - DoD CIO	\$1,500
Classified program increase. (FY 2025 Baseline: \$99,700 thousand; 0 FTEs; +0 FTEs)	
28) Mission Support - Classified 3 - OUSD(C)	\$1,021
Classified program increase. (FY 2025 Baseline: \$140,637 thousand; 0 FTEs; +0 FTEs)	
29) Mission Support - Classified 4 - OUSD(P)	\$53,300
Classified program increase. (FY 2025 Baseline: \$142,858 thousand; 0 FTEs; +0 FTEs)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

30) Mission Support - Classified 5 - OUSD(P)	\$1,300
Classified program increase.	
(FY 2025 Baseline: \$142,858 thousand)	
31) Mission Support - Classified 6 - OUSD(P)	\$30,000
Classified program increase.	
(FY 2025 Baseline: \$142,858 thousand)	
32) Mission Support - Classified 7 - OUSD(P&R)	\$8,000
Classified program increase.	
(FY 2025 Baseline: \$147,877 thousand; 0 FTEs; +0 FTEs)	
33) Mission Support - Commercially Available Information (CAI) - ATSD(PCLT)	\$1,000
Increase reflects cost to support ATSD(PCLT) which supports DoD's efforts to develop Department-wide CAI policy and an enduring governance and oversight structure.	
(FY 2025 Baseline: \$8,614 thousand)	
34) Mission Support - Compartmented Access Program Management Office (CAPMO) Initiative - OUSD(I&S)	\$2,320
Increase funds the establishment of an OSD CAPMO within OUSD(I&S) to address the challenge of ensuring OSD policymakers have access to compartmented intelligence in support of the Department's highest priorities or in times of crisis. Funding also supports improving SCIF Accreditation capabilities.	
(FY 2025 Baseline: \$129,023 thousand)	
35) Mission Support - Corrosion Prevention Program - OUSD(A&S)	\$3,500
Increase re-establishes the corrosion prevention program for requirements to continually maintain and improve corrosion prevention efforts across the Military Departments.	
(FY 2025 Baseline: \$634,029 thousand)	
36) Mission Support - DIU Critical Support - DIU	\$8,000
Funding provides DIU oversight of hardware technology to accelerate DoD adoption of commercial technology to meet warfighter operational requirements.	
(FY 2025 Baseline: \$18,697 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

37) Mission Support - DoD Clean Audit Opinion - OUSD(C)	\$3,594
Increase reflects funding required pursuant to Department's work toward receiving a clean financial statement audit opinion. Supported activities include the Defense Management Service (DMS), Financial Management (FM) Analytics in Advana, and Defense Business Systems Improvement. (FY 2025 Baseline: \$140,637 thousand)	
38) Mission Support - DoD Records Strategy - DoD CIO	\$4,726
Increase supports compliance with the Federal Records Act of 1950, as amended, by creating technical solutions to the growing records management challenge given the number of electronic records in DoD's possession. (FY 2025 Baseline: \$99,700 thousand; 0 FTEs; +0 FTEs)	
39) Mission Support - Federal Activities Inventory Reform (FAIR) Inventory - OUSD(P&R)	\$4,000
Increase reflects an internal transfer from the OSD Corporate Account to the OUSD(P&R) to implement Office of Management and Budget (OMB) direction and provide data on staff augmentation contracting. Funding will address data hygiene, accuracy, and ensure a digital-first, automated solution to provide critical data to DoD leadership, OMB, and Congress related to the size and composition of the DoD workforce. (FY 2025 Baseline: \$147,877 thousand)	
40) Mission Support - Foreign Investments in the United States (CFIUS) - OUSD(A&S)	\$7,600
Increase in funding is to support expanding work in the requirements to review of foreign acquisitions and/or investments in alignment with current Department priorities. (FY 2025 Baseline: \$634,029 thousand)	
41) Mission Support - Freedom of Information Act (FOIA) Portal - ATSD(PCLT)	\$1,000
Increase reflects cost in Interagency Agreement (IAA) from DOJ for use of required FOIA Portal and additional costs in support of FOIA Appeals and Litigation cases pursuant to reduction of FOIA backlog. (FY 2025 Baseline: \$8,614 thousand)	
42) Mission Support - Industrial Base Policy - OUSD(A&S)	\$19,500
Increase supports additional Defense Industrial Base (DIB) funding to support activities and support supply chain data capability across multiple weapon systems in alignment with Department priorities. (FY 2025 Baseline: \$634,029 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

43) Mission Support - International Cooperation Program - OUSD(A&S).....	\$1,250
Increase supports additional international cooperation activities in alignment with current DoD priorities. (FY 2025 Baseline: \$634,029 thousand)	
44) Mission Support - Logistics Systems Modernization (LSM) - OUSD(A&S).....	\$10,000
Increase supports efforts to achieve priority cross-cutting performance improvement initiatives for warehouse utilization in contractor service support. (FY 2025 Baseline: \$634,029 thousand)	
45) Mission Support - Manpower & Reserve Affairs - OUSD(P&R).....	\$4,054
Increase supports functional community management, incapacitated adult child application portal, flexible spending account, and data collection for overseas cost-of-living allowance. (FY 2025 Baseline: \$147,877 thousand)	
46) Mission Support - Manpower Management Office (MMO) - PIO/DA&M.....	\$5,161
Increase establishes the Manpower Management Office (MMO) in support of the Fourth Estate Manpower Tracking System (FMTS). (FY 2025 Baseline: \$27,257 thousand)	
47) Mission Support - Mergers and Acquisitions - OUSD(A&S).....	\$8,900
Increase supports the review of domestic mergers and acquisitions for national security purposes. (FY 2025 Baseline: \$634,029 thousand)	
48) Mission Support - Mount Weather - OUSD(I&S).....	\$2,100
Increase supports the retrofit of the continuity of operations site for rent, forward-deployed staff, IT Hardware, cabling, and phones. (FY 2025 Baseline: \$129,023 thousand)	
49) Mission Support - Operations - CIO	\$5,908
Increase reflects operational support and sustainment requirements for Special Access Programs (SAP), Federal PKI Bridge, and Administrative and Information Technology services. (FY 2025 Baseline: \$99,700 thousand)	
50) Mission Support - Operations - DIU	\$8,223
Increase provides DIU requirements and hardware technology to accelerate DoD adoption of commercial technology to meet warfighter operational requirements. (FY 2025 Baseline: \$18,697 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

51) Mission Support - Operations - OSD	\$3,517
Increase reflects increased information technology contract support costs across the OSD portfolio. (FY 2025 Baseline: \$2,197,103 thousand)	
52) Mission Support - Operations - OUSD(A&S)	\$27,773
Increase reflects additional requirements to test, evaluate, and demonstrate long-duration energy storage technologies to upgrade Facility Related Control Systems at installations to improve cybersecurity. (FY 2025 Baseline: \$634,029 thousand)	
53) Mission Support - Operations - OUSD(I&S)	\$347
Increase supports USD(I&S) in reaching full operational capability in its role as the PSA for Law Enforcement. Funding supports the development of policy, mission objectives, training requirements, operating guidance, and resourcing of LE activities. (FY 2025 Baseline: \$129,023 thousand)	
54) Mission Support - Operations - OUSD(R&E)	\$8,341
Increase reflects additional information technology contract support across the USRE portfolio. (FY 2025 Baseline: \$83,354 thousand)	
55) Mission Support - Operations - PIO/DA&M	\$2,092
Increase reflects requirements for studies and analysis activities across the PIO/DA&M portfolio. (FY 2025 Baseline: \$40,906 thousand)	
56) Mission Support - PPBE Reforms - OSD	\$10,437
Increase reflects requirements across the OSD to implement PPBE reform for additional contract support in Program/Budget (P/B) to support the additional budget formulation and execution workload driven by the Administration priorities and to address challenges documented by the Commission on PPBE Reform. +\$3,000 thousand for the CDAO +\$1,241 thousand for the D,CAPE +\$6,196 thousand for the OUSD(C) (FY 2025 Baseline: \$394,253 thousand)	
57) Mission Support - Program Engineering Systems - CDAO	\$10,000
Increase reflects support for engineering secured data transfer and data mesh from multi-domain environments. (FY 2025 Baseline: \$385,576 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

58) Mission Support - Strategic Readiness Assessment - OUSD(P&R)..... \$2,956

Increase reflects additional requirements for the analytic capability and capacity required to transform the Department's understanding of, and ability to balance, strategic readiness across time horizons; enabling a more comprehensive, rigorous assessment that provides greater alignment with INDSG priorities to support the DoD priorities to restore the warrior ethos, rebuild our military, and reestablish deterrence.
(FY 2025 Baseline: \$147,877 thousand)

59) Mission Support - Transfer of Campaign Decision Support Team - D,CAPE \$4,054

Increase provides the associated resources for the transfer of the CDST from PIO/DA&M to D, CAPE. The transfer will create efficiencies by aligning CDST analysis and competition assessment activities with synergistic functions performed within D, CAPE. These funds support the transferred FTEs.
(FY 2025 Baseline: \$42,597 thousand)

9. Program Decreases\$-1,241,740

a) Annualization of FY 2025 Program Decreases\$0

b) One-Time FY 2025 Increases \$-106,044

1) Afghan War Commission..... \$-4,186

Decrease reflects a reduction of the FY 2025 congressional add for Afghan War Commission.
(FY 2025 Baseline: \$0 thousand)

2) APEX Accelerators (OUSD(A&S)) \$-32,940

Decrease reflects a reduction of the FY 2025 congressional add for APEX Accelerators.
(FY 2025 Baseline: \$0 thousand)

3) Biotech Commission..... \$-6,126

Decrease reflects a reduction of the FY 2025 congressional add for Biotech Commission.
(FY 2025 Baseline: \$0 thousand)

4) Future of the Navy Commission \$-4,084

Decrease reflects a reduction of the FY 2025 congressional add for Future of the Navy Commission.
(FY 2025 Baseline: \$0 thousand)

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

5) Office of Net Assessment.....	\$-2,553
Decrease reflects a reduction of the FY 2025 congressional add for Office of Net Assessment. (FY 2025 Baseline: \$0 thousand)	
6) Sec. 8051 Red Cross	\$-25,525
Decrease reflects a reduction of the FY 2025 congressional add for Red Cross grant. (FY 2025 Baseline: \$0 thousand)	
7) Sec. 8051 United Service Organization	\$-24,504
Decrease reflects a reduction of the FY 2025 congressional add for USO grant. (FY 2025 Baseline: \$0 thousand)	
8) US Telecommunications Training Institute Defense Training (DoD CIO)	\$-1,021
Decrease reflects a reduction of the FY 2025 congressional add for US Telecommunications Training Institute Defense Training. (FY 2025 Baseline: \$0 thousand)	
9) Vietnam Dioxin Remediation (OUSD(P))	\$-5,105
Decrease reflects a reduction of the FY 2025 congressional add for Vietnam Dioxin Remediation. (FY 2025 Baseline: \$0 thousand)	
c) Program Decreases in FY 2026	\$-1,135,696
1) Compensation and Benefits - Alignment of SAPCO resources from OUSD(A&S) to PIO/DA&M	\$-5,456
Decrease of -22 FTEs reflects the realignment of SAPCO resources from the OUSD(A&S) to the PIO/DA&M in accordance with guidance from the Deputy Secretary of Defense, signed August 30, 2023. (FY 2025 Baseline: \$109,334 thousand; 434 FTEs; -22 FTEs)	
2) Compensation and Benefits – Average Annual Rate (AAR) Repricing.....	\$-22,962
Reduction reflects the proper pricing of the civilian pay AAR based on current and historical execution and the expectation that the workforce will become more junior. (FY 2025 Baseline: \$622,821 thousand; 2,586 FTEs)	
3) Compensation and Benefits - Civilian Harm Mitigation Response (CHMR) - OUSD(P)	\$-2,033
Decrease of -8 FTEs for Civilian Harm Mitigation Response (CHMR) Program to reflect disestablishment of the program. (FY 2025 Baseline: \$96,295 thousand; 381 FTEs; -8 FTEs)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

- 4) Compensation and Benefits - Functional FTE Transfer - ASD(SO/LIC)) & SSO \$-528
Decrease of -2 FTEs reflects the realignment from ASD(SO/LIC) to the OUSD(P) for personnel inappropriately assigned to ASD(SO/LIC) & SSO after the separation from OUSD(P) in FY 2025.
(FY 2025 Baseline: \$15,946 thousand; 61 FTEs; -2 FTEs)
- 5) Compensation and Benefits - Reorganization of the Office of the Director of Operational Test and Evaluation \$-20,540
Decrease reflects the elimination of redundant, non-essential, and non-statutory functions within ODOT&E that do not support operational agility or resource efficiency in accordance with SECDEF memorandum titled "Reorganization of the Office of the Director of Operational Test and Evaluation" signed on May 27, 2025.
(FY 2025 Baseline: \$30,025 thousand; 118 FTEs; -79 FTEs)
- 6) Compensation and Benefits - Transfer of Biometrics & Forensics Responsibilities - OUSD(R&E)..... \$-260
Decrease of -1 FTE reflects the transfer of personnel from OUSD(R&E) to the OUSD(I&S) to address the additional workload associated with increased mission of Defense Biometrics and Defense Forensics.
(FY 2025 Baseline: \$58,834 thousand; 218 FTEs; -1 FTEs)
- 7) Compensation and Benefits - Transfer of Campaign Decision Support Team - PIO/DA&M \$-1,164
Decrease of -5 FTEs the transfer of the Campaign Decision Support Team (CDST) from the PIO/DA&M to the People's Republic of China (PRC) Competition Assessment Team (PCAT) in accordance with direction from the SECDEF signed July 26, 2024.
(FY 2025 Baseline: \$26,162 thousand; 117 FTEs; -5 FTEs)
- 8) Efficiency – Contract Services..... \$-260,334
Reduces contracts for Advisory and Assistance Services to promote efficiencies and advance the policies of the Administration in alignment with Executive Order 14222, "Implementing the President's Department of Government Efficiency Cost Efficiency Initiative."
(FY 2025 Baseline: \$2,281,793 thousand; 0 FTEs; +0 FTEs)
- 9) Efficiency – Diversity and Inclusion Termination..... \$-8,965
Eliminates all diversity, equity, inclusion (DEI) and diversity, equity, inclusion, and accessibility (DEIA) funding in compliance with Executive Order 14151, "Ending Radical and Wasteful Government DEI Program and Preferencing," which terminates mandates, policies, programs, preferences, and activities in the Federal Government for these programs.
(FY 2025 Baseline: \$147,877 thousand; 0 FTEs; +0 FTEs)

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

10) Efficiency – Travel	\$-6,255
Reduces discretionary travel funding to align with Executive Order 14222, “Implementing the President’s Department of Government Efficiency Cost Efficiency Initiative.”	
(FY 2025 Baseline: \$2,281,793 thousand; 0 FTEs; +0 FTEs)	
11) Efficiency – Workforce Optimization	\$-70,607
Reduces civilian personnel full-time equivalents and funding to optimize the workforce in compliance with Executive Order 14210, “Implementing the President’s Department of Government Efficiency Workforce Optimization Initiative.”	
(FY 2025 Baseline: \$638,922 thousand; 2,559 FTEs; -281 FTEs)	
12) Mission Support - 4th Estate Proposed Reductions - OSD	\$-14,002
Reduces funds in line with reductions proposed by the DoD Principal Staff Assistants to free up resources from non-lethal, lower-priority programs to reinvest in rebuilding our military.	
(FY 2025 Baseline: \$2,281,793 thousand; 0 FTEs; +0 FTEs)	
13) Mission Support - Campaign Modeling and Simulation Modernization - OSD	\$-1,180
Decrease reflects the reduction in funding for secure facility and IT costs, not required in FY 2026.	
(FY 2025 Baseline: \$2,281,793 thousand)	
14) Mission Support - Centrally Managed Must Funds Bills - OSD	\$0
Decrease reflects the internal realignment of funds from the PSAs to the OSD Corporate Account to create efficiencies through centrally managing government-wide must fund bills as follows: PIO/DA&M (-\$100 thousand), DoD CIO (-\$3,668 thousand), OUSD(A&S) (-\$41,906 thousand), OUSD(C) (-\$318 thousand), OUSD(I&S) (-\$2,252 thousand), and OUSD(R&E) (-\$966 thousand).	
(FY 2025 Baseline: \$2,281,793 thousand)	
15) Mission Support - Civilian Harm Mitigation Response (CHMR) - OUSD(P)	\$-9,567
Decrease reflects the associated program funding for CHMR and disestablishment of the program.	
(FY 2025 Baseline: \$142,858 thousand)	
16) Mission Support - Classified - OUSD(I&S).....	\$-5,250
Classified program decrease.	
(FY 2025 Baseline: \$129,023 thousand; 0 FTEs; +0 FTEs)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

17) Mission Support - Climate, Energy, and Installation Resilience Programs - OUSD(A&S).....	\$-41,460
Decrease reflects discontinuation of climate-specific investments, reduced installation energy and storage, and reduced low-priority operational energy initiatives. (FY 2025 Baseline: \$634,029 thousand)	
18) Mission Support - Climate, Energy, and Installation Resilience Programs - OUSD(P)	\$-14,000
Decrease reflects discontinuation of climate-specific investments, reduced installation energy and storage, and reduced low-priority operational energy initiatives. (FY 2025 Baseline: \$142,858 thousand)	
19) Mission Support - Commercially Available Information (CAI) - OSD	\$-1,000
Decrease reflects reduced requirements for the ATSD(PCLT) efforts to develop Department-wide CAI policy and an enduring governance and oversight structure. (FY 2025 Baseline: \$349,436 thousand)	
20) Mission Support - Emerging Contaminants - OUSD(A&S)	\$-1,950
Decrease reflects the transfer of funds from the OSD Corporate Account to the OUSD(P&R) to implement OMB direction related to the FAIR Act. (FY 2025 Baseline: \$634,029 thousand)	
21) Mission Support - Federal Activities Inventory Reform (FAIR) Inventory - OSD	\$-4,000
Decrease reflects the transfer of funds from the OSD Corporate Account to the OUSD(P&R) to implement OMB direction related to the FAIR Act. (FY 2025 Baseline: \$2,281,793 thousand)	
22) Mission Support - Federally Funded Research and Development Center (FFRDC) - OSD	\$-121
Decrease reflects a reduction in programs that are a private-sector entity sponsored by the DoD to provide objective, independent research, analysis, and advice on complex scientific and technical issues. (FY 2025 Baseline: \$2,281,793 thousand)	
23) Mission Support - Freedom of Information Act (FOIA) Portal - ATSD(PCLT).....	\$-1,000
Decrease reflects costs to support the ATSD(PCLT) cost from DOJ for use of required FOIA Portal and additional costs in support of FOIA Appeals and Litigation cases pursuant to reduction of FOIA backlog. (FY 2025 Baseline: \$349,436 thousand)	

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

III. Financial Summary (\$ in Thousands): (Cont.)

24) Mission Support - Improving workforce composition - OUSD(I&S).....	\$-3,750
Decrease reflects the insourcing of previously funded contractor positions to improve oversight and mission effectiveness. The OUSD(I&S) FTE increases are included in the increase narratives. (FY 2025 Baseline: \$129,023 thousand)	
25) Mission Support - Mount Weather - OSD.....	\$-2,100
Decrease supports the retrofit of continuity of operations site for OUSD(I&S) and the associated rent, forward-deployed staff, IT Hardware, cabling, and phone costs. (FY 2025 Baseline: \$349,436 thousand)	
26) Mission Support - Operations - OSD.....	\$-3,447
Decrease reflects a reduction in information technology contract support across the OSD portfolio. (FY 2025 Baseline: \$2,281,793 thousand)	
27) Mission Support - Program Realignment - CDAO.....	\$-197,231
Decrease represents overall Advana funding transfer from this OSD budget to OSD RDT&E PE BA-08 Software Pilot Program for more flexible and adaptable execution per recommendations of the Appropriations Committee. (FY 2025 Baseline: \$385,576 thousand)	
28) Mission Support - Raven Rock Mountain Complex (RRMC) Continuity of Operations Plan (COOP) - OUSD(P)..	\$-1,990
Decrease reflects one-time costs from FY 2025 for RRMC COOP that are not required in FY 2026. (FY 2025 Baseline: \$142,858 thousand)	
29) Mission Support - Transfer of Campaign Decision Support Team - PIO/DA&M.....	\$-4,054
Decrease reflects the transfer of the CDST from the PIO/DA&M to the D,CAPE. (FY 2025 Baseline: \$40,906 thousand)	
30) One-Time FY 2026 Costs.....	\$-430,490
Decrease reflects anticipated funding included in the Reconciliation Bill (H.R. 1) for Deployable Test and Evaluation for All-Domain, Attributable Autonomous Systems (TRMC), Range/Test & Evaluation Improvements (DoD CIO), Golden Dome Cybersecurity (OUSD(A&S)), Office of Strategic Capital (OUSD(R&E)), and classified programs (DIU and OUSD(A&S)). Further information for this reconciliation request is provided in Sections 20002, 20003, 20004, and 20005 of the Reconciliation Exhibit. (FY 2025 Baseline: \$2,281,793 thousand)

Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates

III. Financial Summary (\$ in Thousands): (Cont.)

FY 2026 Budget Request.....\$2,093,717

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

A. Under Secretary of Defense, Acquisition and Sustainment (OUSD(A&S)):

The OUSD(A&S) is the Principal Staff Assistant (PSA) and advisor to the SECDEF and DEPSECDEF for all matters relating to acquisition and sustainment in the Department. The primary responsibilities of the OUSD(A&S) include serving as the Department's chief acquisition and sustainment officer with the mission of enabling the delivery and sustainment of secure and resilient capabilities to the warfighter and international partners quickly and cost effectively. The OUSD(A&S) is also responsible for: establishing policies and supervising all elements of acquisition, sustainment, the defense industrial base, and modernization of the nuclear forces.

The OUSD(A&S)'s major activities include Readiness and Environmental Protection Initiative (REPI), and Logistics Systems Modernization (LSM) Support, Native American Lands Environmental Mitigation Program (NALEMP), Global Investments and Economic Security (GIES), APEX Accelerators, and Chemical and Biological Weapons Elimination (CBWE) Support Services.

Major Program Title: Readiness and Environmental Protection Integration (REPI)

Measure/Description	Actuals	Enacted	Requested
Readiness and Environmental Protection Initiative (REPI)	FY 2024	FY 2025	FY 2026
Metric #1: Percent funding to highest tier priority installations (Target is 80%)	67%	67%	80%
Metric #2: Percent of validated projects funded (Target is 70%)	79%	74%	82%
Metric #3: Percent partner cost-share (Target is 50%)	50%	50%	50%

The risk of incompatible land use threatens mission capabilities essential for warfighter access to realistic training and testing for current and future force. Investments for the REPI program address Component requirements to enter into cost-savings agreements with private conservation organizations and/or state and local governments to acquire off-base property interests, usually easements, as well as enhance off-base installation resilience to severe weather events. These agreements protect mission capability by cost-sharing the long-term protection of compatible land uses around DoD ranges and installations, including preserving strategically important missions across the INDOPACOM region as well as preventing unwanted foreign ownership. REPI partnership projects meet critical, near-term, but time limited opportunities, to preserve DoD installation and range capabilities. REPI leverages the capabilities, resources and priorities of the private sector and state and local governments to obtain land and/or easements that will prevent incompatible

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

development or other land uses that impact military operations. REPI partnerships support sound planning, ecological integrity, and interagency coordination, and help avoid more expensive costs, such as the need for training workarounds or segmentation and future Military Construction (MILCON) to modify or relocate training assets to less-restricted locations.

Major Program Title: Improve Acquisition & Logistics Processes - Logistics Systems Modernization Support (LSMS)

Measure/Description	Actuals¹	Enacted	Requested
	FY 2024	FY 2025	FY 2026
Metric #1: Time Definite Delivery (TRANSPORTATION)	82.2%	85%	82.3%
Metric #2: Percentage of Policy Current ² (Goal: 90%)	95%	90%	90%
Metric #3: High priority audit recommendations closed ³ (Goal: Close within timeframe assigned)	0	2	1
Metric #4: % Log IT systems w/ end-to-end Logistics processes compliant w/ DoDD 8190.01E & DLM 4000.25 (SPM 4.7.4.1)	N/A	80%	90%
Metric #5: % Log IT systems perform equipment accountability and visibility that comply with DoDI 5000.64 (SPM 4.7.4.2)	N/A	10%	20%
Metric #6: % Log IT systems w/ materiel inventory management functions compliant w/ DoDM 4140.01 V11 (SPM 4.7.4.3)	N/A	10%	20%
Metric #7: % Light Duty Vehicles (lease/buy) measured against Service budget requirement to meet E.O. 14057 (SPM 4.7.5.1)	N/A	N/A	75%
Metric #8: # of Service/DLA warehouse locations scanned, recorded, and managed into the WU Dashboard (SPM 4.7.7.1)	N/A	9	90

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Metric #9: Policy & procedures established to submit automated Storage Space Management Report (SSMR) to DASD(Log) twice a year (SPM 4.7.7.2)	N/A	25%	75%
---	-----	-----	-----

1. Office of the Deputy Assistant Secretary of Defense for Logistics (ODASD(LOG)) currently manages and maintains 75 issuances.
2. ODASD(LOG) Policy & Compliance considers GAO Priority Recommendations the priority to ensure they are worked and addressed to the satisfaction of the DASD(LOG), ASD(S), and GAO. There are currently three recommendations provided under GAO-22-105002, issued May 2023. All high priority recommendations are tied to the F-35 program, Joint Strike Fighter.

The ODASD(LOG), under the ASD(S), is responsible for the Department's logistics strategy and policy, supply, storage and distribution, property and equipment, transportation, and program support. Its mission is to drive warfighting advantages through efficient and effective operation and improvement of the Joint Logistics Enterprise. The subject budget line funds a contract that provides a 46 contractor FTE workforce across four major functional areas in ODASD(LOG); the contractor workforce represents 65% of the total ODASD(LOG) workforce.

The functional subcomponents supported by this contract are as follows: 1) The Supply Directorate, which oversees DoD policy and guidance for materiel management, supply, storage, and distribution. This directorate monitors supply support efficiency and effectiveness through performance measures and develops policies and processes to improve visibility, accountability, and control of all critical assets. The Supply Directorate, on behalf of USD(A&S), is also responsible for monitoring Defense Working Capital Fund activities, ensuring supply availability and cash solvency. 2) The Transportation Directorate promulgates, provides, and oversees the DoD policy and guidance for the efficient and effective use of government and commercial transportation resources. This directorate coordinates government-wide category management initiatives for transportation and logistics services. This directorate also ensures Defense Transportation System effectiveness, and advocates for US civilian transportation capabilities for wartime needs. Finally, this directorate oversees the Department's Personal Property and Mail policies and programs. 3) The Commercial Support to Operations Directorate develops and sustains DoD policy and federal regulations and provides program support governing Operational Contract Support (OCS), Private Security Contractors (PSC), Vendor Threat Mitigation (VTM), contractor planning, management, and execution in support of combat, humanitarian, and disaster relief operations. This directorate works across the DoD enterprise to integrate OCS, PSC, and VTM programs across joint capability areas, joint warfighting functions, and interagency and industry partners. 4) The Policy & Compliance Directorate monitors the life cycle of DoD Logistics Business Systems and works to consolidate the number of logistics systems throughout the enterprise. This directorate provides customer-focused support for inquiries, congressional reports, and audits. Additionally, it manages all Contract Office Representative (COR) functions including support award, modification, and exercise of contract options along with all contractor tracking. Lastly, this directorate is the resource management liaison for planning, programming, budgeting, and financial management, including all FIAR accountability, invoicing, and reporting.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Major Program Title: Native American Lands Environmental Mitigation Program (NALEMP)

Measure/Description	Actuals	Enacted	Requested
Address environmental impacts on Indian lands from former DoD activities.	FY 2024	FY 2025	FY 2026
Metric #1: Assess up to 30 reported potential impacts (RPIs) through completion of Step I and Step II/III Assessment Reports. [1158 RPIs reported to date.]	100%	100%	100%
Metric #2: Prioritize and rank all NALEMP-eligible and Under Review sites for funding consideration.	100%	100%	100%
Metric #3: Execute Cooperative Agreements (CAs) with Federally Recognized Tribes to remediate environmental impacts.	13 CAs at a value of 7.1M	14 CAs at a value of \$11.1M	14 CAs at a value of \$12M
Metric #4: Complete environmental remediation and close-out NALEMP sites. [102 sites closed as of FY22.]	4	1 (1 full site and 8 impact areas associated with 5 sites.)	4

The NALEMP, codified under the NDAA for FY 2021, addresses environmental effects of past DoD actions on Indian lands and on other locations where DoD, an Indian tribe, and the current landowner agree that such mitigation is appropriate. The DoD addresses environmental impacts through government-to-government consultation aimed at restoring health and human safety, protecting natural and cultural resources, and returning Tribal lands to optimal use determined by the Tribe. NALEMP projects remove hazardous materials, munitions debris, unsafe buildings or structures, lead-based paint or asbestos, and abandoned equipment.

The NALEMP uses site evaluation and assessment processes, while also considering other potential effects on tribal communities' way of life. The NALEMP-eligible sites are screened annually against health, safety, and environmental criteria to help OASD(EI&E) determine priority for cleanup action.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Funding available under NALEMP is provided to Tribal Partners through 2-year Cooperative Agreements (CA). Funding provided through CAs enable Tribal governments to lead NALEMP projects, incorporate traditional ecological knowledge into design for cleanup, and build tribal capacity regarding environmental services and technical remediation skills.

Major Program Title: Global Investments and Economic Security (GIES)

Under the authority, direction, and control of the USD(A&S), the Assistant Secretary of Defense (ASD), Industrial Base Policy (IBP) serves as the DoD's representative on three statutory and Executive Order-mandated interagency committees, responsible for the review of potential impacts by foreign investments in the U.S. and defense industrial base, telecommunications industry, and foreign access to the electromagnetic spectrum. These include the Committee for Foreign Investments in the U.S. (CFIUS), an interagency committee that operates pursuant to section 721 of the Defense Production Act of 1950, as amended (section 721), and as implemented by Executive Order 11858, as amended, and the regulations at chapter VIII of title 31 of the Code of Federal Regulations; The Committee for the Assessment of Foreign Participation in the United States Telecommunication Services Sector, as established by Executive Order, commonly referred to as "Team Telecom"; and the Committee on Information Communication and Technology Supply Chain (ICTS) as established by Executive Order: Securing the Information and Communications Technology and Services Supply Chain. GIES also serves as the DoD's point of contact with the Federal Trade Commission on Hart-Scott-Rodino reviews of proposed mergers and acquisition and as its Compliance Officer in the administration of an FTC ordered consent decree governing the operations of a merger of two key defense industrial base entities.

GIES serves as the DoD's representative on CFIUS and directs CFIUS work among five primary functional areas: 1) Case Management, 2) Mitigation, 3) Monitoring, 4) Non-notified, and 5) International Engagement. Case Management investigates currently filed cases and declarations, coordinating with thirty-three DoD stakeholder organizations to identify national security concerns associated with a transaction. Mitigation negotiates the terms of national security agreements to resolve national security concerns. Monitoring oversees the implementation, sustainment, oversight, and enforcement of national security mitigation agreements. Non-notified identifies transactions that have not been filed with CFIUS which may pose national security considerations to the defense industrial and technology base. International engagement cooperates with allies and partners to address the transnational challenges posed by evolving national security threats and investment landscapes.

Number of Companies on the List	73	134	190

Major Program Title: APEX Accelerators

Authorized under 10 U.S.C. § Chapter 142, which authorizes the SECDEF to enter cost sharing cooperative agreements with state and local governments, nonprofit organizations, Indian tribal organizations, and Indian economic enterprises to establish and maintain APEX Accelerators (formerly known as Procurement Technical Assistance Centers (PTAP)). The purpose of the program is to modernize and enhance the industrial base, improve local economies, and generate employment by assisting businesses in obtaining and performing under contracts with DoD, as well as other federal agencies and state and local governments. Under the PTAP statute, up to \$1.5 million can be paid for statewide programs and \$0.75 million for regional (less than statewide) programs during the fiscal year. The program was established to expand the number of businesses capable of participating in government contracts. The program is administered by the DoD Office of Small Business Programs, in cooperation with states, local governments, and nonprofit organizations. Under the program, APEX Accelerators help large and small businesses pursue and perform under contracts with the Department of Defense, other federal agencies, state, and local governments and with government prime contractors. Most of the assistance the APEX Accelerators provide is offered at no cost to the business. APEX Accelerators support to businesses includes registration in systems such as the System for Award Management (SAM), readiness evaluation, identification of contract opportunities, help in understanding requirements, cyber security readiness, and in preparing and submitting bids. APEX Accelerators are also critical enablers to opening the defense industrial base to small, non-traditional companies who are on the forefront of innovation. The Accelerators are being effectively used to facilitate small business cyber security training, foreign ownership and control (FOCI) training to small businesses, conduct market research and commercial due diligence for the DoD, and to share data between small businesses and the Department. The result of the work performed by the Accelerators is increased business participation that delivers preeminent solutions to the military and other government users. The APEX Accelerators have a local presence in 49 states, Washington, D.C., Puerto Rico, and Guam.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Major Program Title: Chemical and Biological Weapons Elimination (CBWE) Support Services

Measure/Description	Actuals	Enacted	Requested
Chemical and Biological Weapons Elimination (CBWE) Support Services	FY 2024	FY 2025	FY 2026
Metric #1: Readiness level of equipment to assess and destroy Recovered Chemical Warfare Material (RCWM)	100%	90%	90%
Metric #2: Readiness level of personnel to execute assessment and destruction of RCWM	100%	95%	95%
Metric #3: Readiness level of operational capability to conduct 18 assessments and 2 short-duration (<90-days) destruction operations of confirmed RCWM within the United States	50%	50%	50%

Funding to maintain enduring chemical warfare material assessment and destruction capabilities following the completion of the destruction of the U.S. chemical stockpile, through the Assembled Chemical Weapons Alternatives (ACWA) program. The FY 2026 Presidents Budget Request funds four critical domestic recovered chemical warfare material (RCWM) support functions required to meet Chemical Warfare Convention requirements for RCWM within the U.S.

1. Maintenance of equipment: Provides a comprehensive maintenance, logistics, and training program to ensure that equipment and personnel are mission-capable to support assessment of munitions and certain materials of interest that may be CWM and destruction of confirmed RCWM.
2. Sustainment of personnel: Provides personnel to plan, manage, and execute RCWM program support functions. Ensures that operators are trained and available to conduct assessment of potential CWM and destruction of RCWM.
3. Operational capability to assess and destroy RCWM: Provides operational capability to conduct up to 18 assessments of potential CWM and 1 destruction operation of confirmed RCWM.
4. Program management: Provides program management support necessary to execute RCWM activities in a consistent, environmentally compliant manner that minimizes risk to human health and the environment.

The funding also aligns with Interim National Defense Strategic Guidance (INDSG) priorities and ensures an enduring capability to assess and destroy foreign chemical and biological weapons, as required, including U.S. chemical weapons identified/recovered abroad.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

B. Under Secretary of Defense, Comptroller (OUSD(C))/ Chief Financial Officer:

Major Program Title: Comptroller Initiatives

Measure/Description	Requested	Estimate	Estimate
Financial Improvement and Audit Remediation	FY 2024	FY 2025	FY 2026
Metric #1: Percentage of notices of findings and recommendations closed in support of a clean audit opinion for the Department.	3.2%*	27.7%**	27.7%**
Metric #2: Percentage of Fund Balance With Treasury (FBWT) reconciliations migrated to Advana	86%	95%	100%
Metric #3: Percentage of service provider audit reports with a favorable (unmodified or qualified) audit opinion.	93%	93%	93%
Metric #4a: Number of favorable (unmodified or qualified) financial statement audit opinions.	13	15	20
Metric #4b: Percentage of supported DoD Journal Vouchers recorded in the Defense Departmental Reporting System.	93%	94%	94%
Metric #5: Number of Component material weakness(es) removed or downgraded annually.	21	36***	45***
Metric #6: Percentage of overall FBWT focused risk areas' balances at less than or equal to 3% of the Total DoD FBWT balance (FBWT AFS balance sheet).	<3%	<3%	<3%

Metric #1

*As of June 9, 2025, the FY 2024 Notice of Findings and Recommendations (NFR) closure rate is 3.2% (closed FY 2024 NFRs# = 90 / total FY 2024 NFRs #2,848). The actual FY 2024 NFRs closure will be provided by DoD OIG around January – March 2026 when all FY 2025 NFRs, inclusive of FY 2024 NFR closure are finalized.

**Given the actual FY 2023 NFR closure rate of 27.7%, the DoD anticipates maintaining or exceeding this rate in FY 2025 and FY 2026 as DoD continues to mature our audit processes and address more complex deficiencies.

Metric #3

*June 9, 2025: The DoD service auditor reports will not be complete until mid-Sept; however, most of the reports are targeted to be available in the mid-August timeframe. There are times where report due dates are extended. This is formalized through contract modifications. Over the next 2 years (FY 2025-2026), DoD plans to add 6 new service auditor reports: 2 in FY 2025 and 4 in FY 2026.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Progress is measured by the downgrading and elimination of material weaknesses, and by critical milestones achieved in meeting the SECDEF audit priorities. Projections for numbers of findings closed now consider whether a finding impacts a material weakness and therefore requires more extensive effort. The Department is also improving how it tracks dependencies on service providers and external organizations. The Department established metrics for each audit priority area to monitor the Department's progress toward downgrading or remediating that material weakness. These metrics are the Department's methodology to quantify progress throughout the year.

Metric # 4a

June 9, 2025: The following received unmodified or qualified audit opinion in FY 2024: Military Retirement Fund, Medicare-Eligible Retiree Health Care Fund, U.S. Army Corps of Engineers – Civil Works, DHA-Contract Resource Management, Defense Commissary Agency, DFAS Working Capital Fund, DTRA, DoD OIG, NRO, Defense Contract Agency, DISA WCF, US Marine Corps, and DLA TF.

As of June 9, 2025, the following Components project to receive unmodified or qualified audit opinion in FY 2025 in addition of those maintain their favorable audit opinion in FY 2024: DISA GF, and DIA.

As of June 9, 2025, the following Components project to receive unmodified or qualified audit opinion in FY 2026 in addition of those maintain their favorable audit opinion in FY 2025: Army WCF, AF GF, and NSA.

Metric # 5

*** Those numbers are based on Components audit roadmap as of June 9, 2025

Major Program Title: Comptroller Initiatives

Measure/Description	Requested	Estimate	Estimate
	FY 2024	FY 2025	FY 2025
Metric: Sustain a professional, certified financial management workforce	95%	95%	95%

The DoD FM Certification Program (DFMCP), increases the technical FM and leadership competence of individual FM members (civilian and military), enabling support to the Department's mission.

OUSD(C) manages the effort to sustain the percentage of FM members in good standing at or above a 95% goal. The Good Standing metric represents the percentage of FM members who are compliant in both initial certification and continuing education training. Continuing education training of FM certified members is measured on a continual basis through random audits. Goals for FY 2025 and FY 2026 are stated in the table above as set forth in the Department's Annual Performance Plan.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

The DoD FM workforce is comprised of approximately 55K civilian and military personnel of various FM disciplines. DoD continued its record of steady progress in achieving the strategic objective of sustaining a well-trained workforce that possesses the requisite FM knowledge, skills, and abilities to perform effectively in all FM career series. OUSD(C) has several FM workforce programs, projects, and initiatives focused on meeting the Department's strategic objectives.

OUSD(C) sustained a professional and certified FM workforce through the following programs and initiatives:

The DoD FM workforce completed 436,000 web-based course hours from the on-line selection of 83 courses maintained by OUSD(C). These 83 courses ensure DoD FM workforce members can complete financial management certification requirements at no charge to their command or the individual.

The Virtual Instructor Led Training (VILT) offerings remained popular among DoD FM Workforce members. VILT courses provide a networking and dialogue opportunity not available through the WBC offerings. OUSD(C) offered 83 courses and more than 27,000 CETs. These included the popular Leadership, Accounting, and Data Analytics courses.

OUSD(C) continued expansion of the FM VisionExchange (fmVX), a monthly virtual speaker series focused on a variety of topics covering FM skills, leadership, and DoD priorities. These 24 virtual training sessions earned employees in the DoD FM Certification Program more than 7,800 CETs. Demand has firmly established fmVX as an essential offering to the FM workforce with the ability to provide emergent training.

Major Program Title: Resource Management System

Measure/Description	Requested	Estimate	Estimate
	FY 2024	FY 2025	FY 2026
Metric #1: Number of Components/appropriations utilizing the Exhibition Automation System (EAS) tool.	47	49	52
Metric #2: Average Man-Hours saved using the EAS Tool	37%	38%	41%
Metric #3: Types of unique Exhibits Automated	44	46	75
Metric #4: Number of Components using NGRMS as a Service	0	0	2

Metric 1 increases by 2 in FY 2025 which includes Pacific Deterrence Initiative and Enhancing Combat Capability and increases by 3 in FY 2026, which includes Army, Navy, and Air Force Military Personnel exhibits.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Metric 3 increases by 2 unique automated exhibits in FY 2025 (PB-11, DHP PB-31R); increases by 29 unique automated exhibits in FY 2026 due to automation of Military Personnel exhibits. The OUSD(C) maintains the OUSD(C) Resource Management System (RMS), a Family of Systems that deliver the capability to manage and support DoD Planning, Programming, Budgeting, and Execution activities.

In FY 2024, EAS added 3 additional automated DWCF exhibits across all activity groups and completed enhancements for the Defense Working Capital Fund (DWCF) for the Navy, Army, and Air Force DoD service justification books, including the Air Force DWCF Electronic Support Activity Group (ESAG). The updates augment the ability to create accurate, complete, and informative justification books for the Army, Navy, Marine Corps, Air Force, and the United States Transportation Command DWCF Activities.

In FY 2025, EAS will create exhibits for a new Volume III that includes Medical Readiness Exhibits for the Defense Health Program justification book and create new exhibits for the Pacific Deterrence Initiative (PDI) justification book to directly support DoD budget documentation requirements for capturing the Department's efforts and investments that strengthen regional deterrence.

Additionally, EAS will pilot a program expanding the use of EAS to create Military Personnel Appropriation budget structures for the Army, Navy, and Air Force. The newly added budget structure will provide the capability to create a justification book with 4 Budget Activities (18 exhibits) with the logic to enable the roll-up of these new exhibits and implemented calculations, as well as delta checks.

EAS will also create new automated exhibits for Enhancing Combat Capability - Mitigating Climate Risk that uniquely support budget documentation across the DoD and military services for investments that support and enhance operational capability, mission resilience, and readiness.

In FY 2026, additional exhibits, reports required by Congress, and quality assurance measures will continue to be introduced and enhanced to streamline the budget build process and reduce data re-entry errors. These measures will improve the efficiency and accuracy of building justification materials.

Next Generation Resource Management System (NGRMS) as a Service will reach Initial Operational Capability. We will expand our customer base across the Department to additional components.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

C. Under Secretary of Defense for Intelligence and Security USD(I&S):

The OUSD(I&S) is the PSA and advisor to the SECDEF and DEPSECDEF on Defense intelligence, counterintelligence, security, law enforcement, sensitive activities to include cover, military deception, operations security, and other intelligence-related matters. The OUSD(I&S) exercises planning, policy, and strategic oversight over all DoD intelligence and security functions. The following evaluation metrics are samples from the OUSD(I&S) programs.

As the Department evolves to face current and anticipated geopolitical, technological, economic, and environmental issues, it requires reliable and relevant intelligence and security support. To advance the Department's strategic goals, the OUSD(I&S) established defense intelligence and security strategic objectives that outline how the Defense Intelligence and Security Enterprises (DIE/DSE) plan to meet the Secretary's priorities:

1. Transform the Foundation of the Future Force
2. Make the Right Technology Investments
3. Strengthen Resilience and Adaptability of our Defense Ecosystem
4. Take Care of Our People and Cultivate the Workforce We Need
5. Address Institutional Management Priorities

The OUSD(I&S) Strategic Objectives must drive defense intelligence and security activities and investments. The strategic objectives are:

1. Provide the Department with a decision advantage over adversaries, paced to the global challenge posed by the pacing threat.
2. Operationalize defense intelligence and security partnerships across the Department, U.S. Government, Private Sector, Academia, and International Allies and Partners.
3. Elevate security and counterintelligence to the maximum extent across the Department.
4. Identify, recruit, train, and retain through enhanced mobility, a workforce capable of supporting the Department's I&S Requirements.

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

Major Program Title: MIP Management and Activities of the OUSD(I&S)

	Actuals	Requested	Estimate
Strategic Priority Alignment: Transform the Foundation of the Future Force; Make the Right Technology Investments; and Strengthen Resilience and Adaptability of our Defense Ecosystem.	FY 2024	FY 2025	FY 2026
Measure/Description			
Clandestine Quarterly Reports	4 Reports	4 Reports	4 Reports
HUMINT Oversight Assessments	1 Assessments	0 Assessments	2 Assessments
HUMINT Operations Reviews/Coordination	30 Reviews	30 Reviews	40 Reviews
Senior Defense Official / Defense Attaché Nomination Coordination	55 Reviews	75 Reviews	80 Reviews
HUMINT Advance Skills Training Programs Oversight/Coordination	1 Programs	1 Programs	1 Programs

Per DoD Directive 5200.37, USD(I&S) exercises oversight of all DoD HUMINT. Establishes Defense HUMINT Enterprise policies, guidance and programs that ensure adherence to National HUMINT Manager guidance and core standards. OUSD(I&S) oversees the implementation of DoD policy and guidance for the coordination and deconfliction of DoD HUMINT and related intelligence activities and other human-derived information gathering activities. OUSD(I&S) monitors DoD HUMINT resource needs and identifies them in DoD and national planning, programming, budgeting, execution, and staffing processes. The HUMINT and Sensitive Activities (H&SA) Directorate is responsible for overseeing enterprise development that enables the collection of information that provides decision advantage over adversaries, operationalizes partnerships with allies, and elevates security across the Department of Defense and the Intelligence Community.

Additionally, a classified annex to the Annual Defense Appropriations Act directs DoD to provide quarterly reports on certain clandestine activities conducted by the Department. H&SA compiles and reviews inputs from DoD components and distributes the quarterly report to six congressional committees and senior Executive Branch officials. Electronic records management and dissemination of the quarterly reports is required to meet stringent information security measures. The Directorate also coordinates OSD-level approvals to conduct certain compartmented activities, conducts periodic reviews of these activities, and prepares/coordinates reports to the OUSD(I&S), the SECDEF, and congressional oversight committees. Further, H&SA provides governance, oversight, coordination, and reporting on other sensitive activities and programs for which metrics are in place and available on classified mediums.

This effort best aligns with the following Strategic Objective:
Provides the Department with a decision advantage over adversaries.

Manage the operations of the Military Intelligence Disclosure Policy Committee (MIDPC), conducting Principals' meetings, and coordinating the Members' responses to actions brought before the committee in accordance with National Disclosure Policy (NDP-1).	4 Meetings	4 Meetings	4 Meetings
Sustain standardized training and certification of DoD Foreign Disclosure Officers through updates to the on-line introductory course and support to DIA's FDO Training & Certification Board of Governors.	100%	100%	100%

The Director for Defense Intelligence for Operational Support and International Partnership (OSIP) implements the Interim National Defense Strategic Guidance (INDSG) priorities to (1) deter strategic attacks against the United States, Allies, and partners and (2) deter aggression, while being prepared to prevail in conflict by building and strengthening mutually beneficial alliances and partnerships. DoD Directive 5143.01 (the OUSD(I&S) Charter) gives the OUSD(I&S) the responsibility to oversee, advance, and synchronize the DIE foreign intelligence relationships and establish foreign Defense Intelligence relationships directly. All OSIP's PE activities execute the OUSD(I&S) charter responsibilities, INDSG, and support the departments initiative of "Succeed Through Teamwork". OSIP oversees, advances, and synchronizes the DIE's foreign intelligence relationships by setting DIE-wide PE priorities in the USD(I&S) PE Strategy and promulgating consistent DIE PE actions and messaging through the interagency Defense Intelligence PE Synchronization Board and DIE Action Plans. OSIP arranges forums and meetings that enable the OUSD(I&S) to establish and foster relationships with foreign counterparts. These forums include: DISDs, Key Leader Engagements, and the FVEY Defense Intelligence Board. DoD Directive 5143.01 also gives OUSD(I&S) the responsibility to establish and oversee the implementation of Defense Intelligence policy, guidance, and strategy for intelligence information sharing and facilitate information sharing activities. OSIP implements these responsibilities by managing the MIDPC and providing military intelligence foreign disclosure policy guidance across the Department.

This effort best aligns with the following Strategic Objective:

Operationalize defense intelligence and security partnerships across the Department, U.S. Government, Private Sector, Academia, and International Allies and Partners (I&S).

**Office of the Secretary of Defense
Operation and Maintenance, Defense-Wide
Fiscal Year (FY) 2026 Budget Estimates**

IV. Performance Criteria and Evaluation Summary:

The Counter–Adversary Defense Industry (C-ADI) initiative pursues strategic activities focused on adversary defense industries in support of the SECDEF’s priority of defending the nation by campaigning to gain and sustain military advantages, counter acute forms of our competitors’ coercion, and complicate our competitors’ military preparations. C-ADI provides guidance, oversees, and assists with the prioritization and coordination of Department efforts related to adversary defense industries. C-ADI leads and advises on the development of strategy and policy, helps to synchronize DoD and IC-wide efforts toward collection and reporting, and drive intelligence analysis related to adversary defense industries to advance the Department’s ability to campaign effectively against strategic threats. The C-ADI team coordinates closely with elements in OSD, the combatant commands, and the defense intelligence enterprise, as well as with interagency partners.

This effort best aligns with the following Strategic Objectives:

- Provide the Department with a decision advantage over adversaries, paced to the global challenge posed by China (I&S).

Military Operations Research Society (MORS) Wargaming Industry-Standard Certification	Certification for up to 20 PAX	Certification for up to 20 PAX	Certification for up to 20 PAX
Red Representation Best Practices – COP for DoD	3 Events	3 Events	4 Events

Per DoD Directive 5105.88, OSD Red Team Serves as the SECDEF and DEPSECDEF Red Team by providing insights on adversaries' highest-level perspectives and potential actions to inform strategic-level DoD activities. The Red Team's combination of operational and intelligence experts consider potential adversary calculus and military responses during the systematic deliberations that inform DoD policy, strategy, analysis, planning, resourcing, organizing, training, or equipping. The OSD Red Team operates with intellectual rigor and strategic foresight while using creative analytic formats to convey anticipated adversary perceptions, strategy, and decision making. Its insights are contextualized within other, established DoD and IC channels of strategic and military analysis and assessment. This work inherently defends the homeland from threats by informing senior decision makers of Chinese Communist Party threat intentions and is used to provide senior decision makers a standard-setting calculus to deter China. The resulting insights provided by Red Team assists in deterring strategic attacks and enhances the mission readiness of the joint force by providing exquisite insight into the adversarial mindset.

This effort best aligns with the following Strategic Objectives:

- Provide the Department with a decision advantage over adversaries, paced to the global challenge posed by China (I&S).
- Operationalize defense intelligence and security partnerships across the Department, U.S. Government, Private Sector, Academia, and International Allies and Partners (I&S).

V. Personnel Summary: (Cont.)

	<u>FY 2024</u>	<u>FY 2025</u>	<u>FY 2026</u>	<u>Change FY 2024/ FY 2025</u>	<u>Change FY 2025/ FY 2026</u>
Civilian FTEs (Total)	2,303	2,612	2,639	309	27
U.S. Direct Hire	2,301	2,559	2,586	258	27
Total Direct Hire	2,301	2,559	2,586	258	27
Reimbursable Civilians	2	53	53	51	0
 Average Annual Civilian Salary (\$ in thousands)	 248.1	 249.7	 240.8	 1.5	 -8.8
 Contractor FTEs (Total)	 1,819	 1,846	 1,797	 27	 -49

Personnel Summary Explanations:

This budget requests 2,586 civilian Full Time Equivalents (FTE), which includes an increase of +308 FTEs. After the "Efficiency - Workforce Optimization" reduction of -281 FTEs, the net increase of +27 FTEs is sustained by a combination of the following requested increases: 1) Administrative Bench Augmentation (OUSD(R&E)), 2) Audit Support (OUSD(C)), 3) Human Resources Office Civilian Workforce (CDAO), 4) Oversight and Effectiveness (OUSD(I&S)), and 5) SCO Workforce.

Note: This table reflects the correct FY 2024 U.S. Direct Hire Civilian FTEs. The FY 2024 U.S. Direct Hire Civilian FTEs in the table differ from the OP-8 by +14 FTEs due to erroneously including them in the OSD SAG instead of this OSD Cyber SAG. It only shows OSD non-cyber civilian FTEs for FY 2024, FY 2025, and FY 2026. An exhibit that includes both cyber and non-cyber civilian FTEs for OSD can be found in the OP-8.
