2020 YEAR IN REVIEW

AREAS OF EXPERTISE

Arlo Solutions understands the challenges, and potential opportunities that may arise from such, that affords us to have an advantage. From cybersecurity and program management to intelligence solutions, our approach to great innovation is simplifying complex ideas into cost-effective results.

CYBERSECURITY

SECURE

Our renowned team of cleared experts are well-informed on identifying security gaps and innovating performance-driven programs. Ultimately, we work to secure your data landscape where only trusted stakeholders know where to find the key.

- Cybersecurity Program Development
- Governance, Awareness & Outreach
- Governance, Risk & Compliance
- Risk Advisory Support
- Risk Management Framework (RMF) Optimization
- Security, Policy & Compliance

PROGRAM MANAGEMENT

STRATEGIC

Serving as an extension of our client's staff, our program management office provides expertise in handling a wide variety of projects from planning to execution and Operation & Maintenance.

- Change Management
- Program Assessment & Evaluation
- Program Management Office (PMO) Support
- Strategic Communications
- Technology Integration & Implementation

INTELLIGENCE SUPPORT

SOLUTIONS

As more and more of our nation's critical missions depend on the integrity of information, having a strong intelligence acumen capability is paramount to the warfighter coming home to live another day.

- Foreign Liaison Officer Support
- Partner Engagement
- PMO Support
- Policy and Compliance
- Special Access Program Support
- Counterintelligence Support

SAF CIO CYBERSECURITY/PROGRAM MANAGEMENT SUPPORT

Support the U.S. Air Force developing a Risk Management strategy cloud authorization as well as DevSecOps.

Arlo currently supports four separate Task Orders for the following programs (1) F-35 Joint Fighter Jet program, worth nearly \$100m (2) the \$85b Ground Based Strategic Deterrent program (3) 76 Software Engineering Group (4) AF Authorization Official for cloud architecture and rapid deployment.

Serve as a liaison and a senior consultant on all matters related to cyber risk management, the Fast Track ATO process, and risk assessments and decision for Continuous Integration/ Continuous Delivery pipelines, schedule.

- Develop program and authorization official specific continuous Authorization process
- Develop templates in support authorizations
- Create and document assessment methodologies

Support the process by obtaining authorization for multiple unclassified and classified cloud-based systems by performing the following operations:

- Develop the initial program roadmap for an authorization to include an integrated master schedule
- Created briefing material and lead weekly Authorization Official Tag Ups
- Facilitate weekly and ad hoc meetings in support of accomplishing the above
- Develop streamlined approach to meeting the internet of complex processes

Support the Air Force Authorizing Official (AF AO) responsible for providing authorizations for systems within the Cloud and DevSecOps boundary. Arlo assisted this AF AO in documenting his Agile Authorization Process that meets the spirit of Fast Track. We develop training on how Cyber Risk Assessors (CRAs) aid the AF AO in conducting risk assessments and provide risk recommendations for Platform One (P1) systems for the AF AO to make a risk determination based on the information provided for the requested authorization type (e.g., IATT, c-ATO, etc.).

AIRFORCE CISO CYBERSECURITY CONTROL SYSTEMS

The Arlo experts provide senior-level guidance, leadership, and expertise in developing and implementing the Cybersecurity Framework and the Risk Management Framework for an enterprise-level cybersecurity program. Provide senior leadership in the development of policies, procedures, and guidance for implementing and maintaining cybersecurity posture. Apply expert understanding of Federal, OMB, and DOD regulatory and statutory cybersecurity requirements.

Authored the USAF's Cybersecurity Strategy to be implemented across the entire AF. The strategy is line with the NIST Cybersecurity Framework and will also be used for Air Force Control Systems.

Authored the Fast Track ATO process which has streamlined the process from nine months to 5-10 weeks. Arlo's CEO has trained and briefed this process to over 1k people. This process is championed by the AF CIO, and has briefed to the DoD, Army and Navy. Fast Track Brief during the annual Air Force Information Technology & Cyber Power (AFITC)~ 4k attendees.

See Fast Track ATO Explanation Video on the Next Slide.

CHIEF INFORMATION OFFICER (OCIO) INFORMATION SECURITY CENTER (ISC) RMF Support

Our team worked diligently to simplify Risk Management Frame (RMF) execution, use innovative approaches for managing risk, and increase the level of automation when carrying out specific tasks. Use mechanization to the greatest extent possible to increase the speed, effectiveness, and efficiency of the steps in the Risk Management Framework (RMF).

We supported collaboration on the Planning Of Action and Milestones (POAM) on security and privacy issues to maximize efficiency and reduce duplication of effort. The objective is to ensure security and privacy requirements, (derived from laws, executive orders, directives, regulations, policies, standards, or missions and business functions), are adequately addressed, and the appropriate controls are selected, implemented, assessed, and monitored on an ongoing basis.

Support consistent, informed, and continuous authorization decisions, reciprocity, transparency and traceability of security and privacy information.

Technical, Assessment, & Policy Support Services (TAPS)

Arlo's experts identified functions, tasks, conditions and standards for the Foreign Liaison Officers (FLOs) employed by the Office of the Under Secretary of Defense for Intelligence by missions and countries.

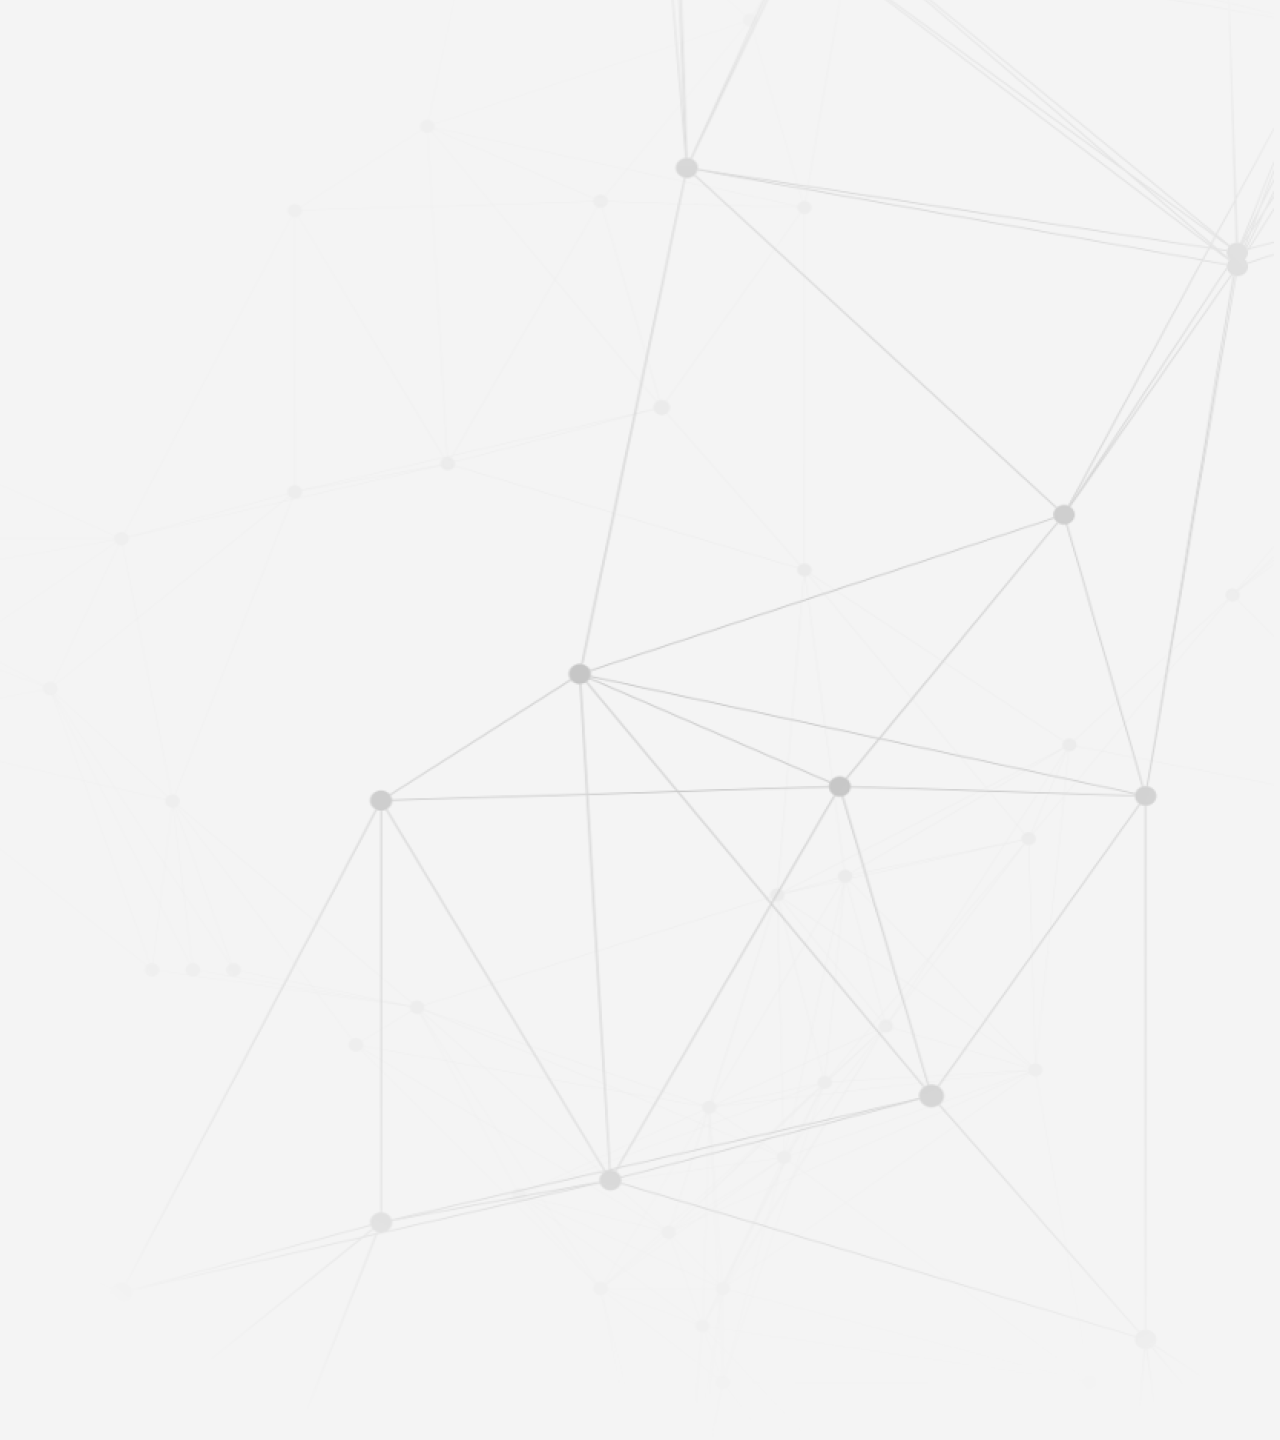

The determined the scope of contact responsibilities related to the identified tasks, coordinate contract requirements, information (type), and physical access requirements. We also recommend short term and long-term strategies to ensure FLOs comply with policy and maintain effectiveness.

We provided required documentation and coordinate with relevant offices in the Offices of the Secretary of Defense, Director of National Intelligence, Department of State, and foreign governments to ensure FLOs documentation is in a formal FLO program and are in compliance with the relevant laws and policies.

PROCESS

MANAGEMENT PROCESS
EMPLOYEE RECRUITMENT
EMPLOYEE RETENTION
GOVERNMENT RELATIONS

MANAGEMENT PROCESS

Our rigorously structured and disciplined management methods are specifically designed to control tasks and task-level activities. These elements are part of our standard management approach to help us to comply with performance delivery requirements, ensure the identification and mitigation of risks, and maintain transparency in communication and reporting.

EMPLOYEE RECRUITMENT

Arlo recruits a stable, talented workforce in support of our clients. Arlo's recruiting process enables us to staff qualified personnel with a 100% retention rate in 2019 and 2020 and a 93% retention rate in 2021.

IDENTIFY PERSONNEL

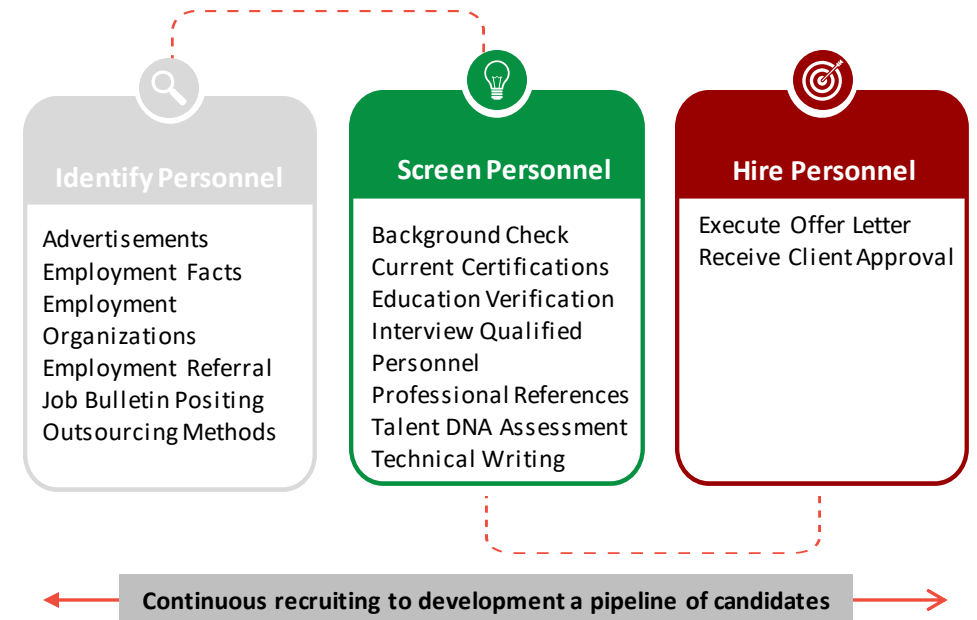

When appropriate, Arlo makes every effort to retain quality incumbent personnel to retain site-specific knowledge. We also recognize the value of having fresh ideas and perspectives. Arlo utilizes a variety of candidate sourcing methods to provide high caliber talent over the life of our contracts.

SCREEN PERSONNEL

Arlo screens applicant resumes through efficient, cost-saving methods such as electronic applicant processing and video screening to recommend candidates for further consideration through interviews. At no additional cost to our clients, Arlo uses innovative individual talent assessments (Talent DNA) to identify a person's unique operational signature to measurably improve organizational job fit, teamwork, and effectiveness. It scientifically matches people with key job requirements and organization needs to better optimize hiring, development, and retention. These operational assessments allow Arlo to make the best use of our talent.

HIRE PERSONNEL

Arlo's Recruitment Manager sends offer letters to selected incumbents and/or applicants. Before Day 1, Arlo's leadership focuses on integrating new employees into the workforce, so they feel like a valued member of the team. We monitor all new hires to further assess adaptation to the program and team and to ensure each person is executing duties within the clients' standards.

EMPLOYEE RETENTION

Attracting and maintaining Top Secret/SCI staff is key to the success of the company.

COMPENSATION PLAN

Arlo's Compensation Plan ensures that all employees earn more than a fair wage and have access to many additional resources and benefits. When working with teaming partners, Arlo takes a "One Team" approach to new heights in order to significantly reduce the risk around attrition by eliminating the typical veil that exists between companies as to employee compensation and benefits. Each company must assume its most competitive posture to attract top talent from several limited pools of expertise.

BENEFITS PROGRAM

We offer a rich benefits program that incorporates health, dental, vision, retirement, short/long term disability, paid time off, and professional development. Our benefits program meets our corporate objective to "Take Care of Our People." Arlo's wages exceed those of our competitors, which rewards and encourages the stability we need from our employees.

Medical, Dental & Vision

Disability and Life Insurance

Retirement & Savings Plan

Paid Time Off

Work Life Balance

Professional Development

GOVERNMENT RELATIONS

The relationship between the contractor and client is paramount.

01

MONTHLY REPORT

Provide monthly reports to our client. The report shall include achieved deliverables and work accomplished during the performance period.

02

ONSITE PROGRAM MANAGER MEETINGS

Meet with client to provide an overview of productivity and customer service metrics.

03

AD HOC MEETINGS

Unresolved problems at the Program Manager level shall be elevated to management. Management should ensure concerns and/or issues are addressed and incorporated into Lessons Learned.

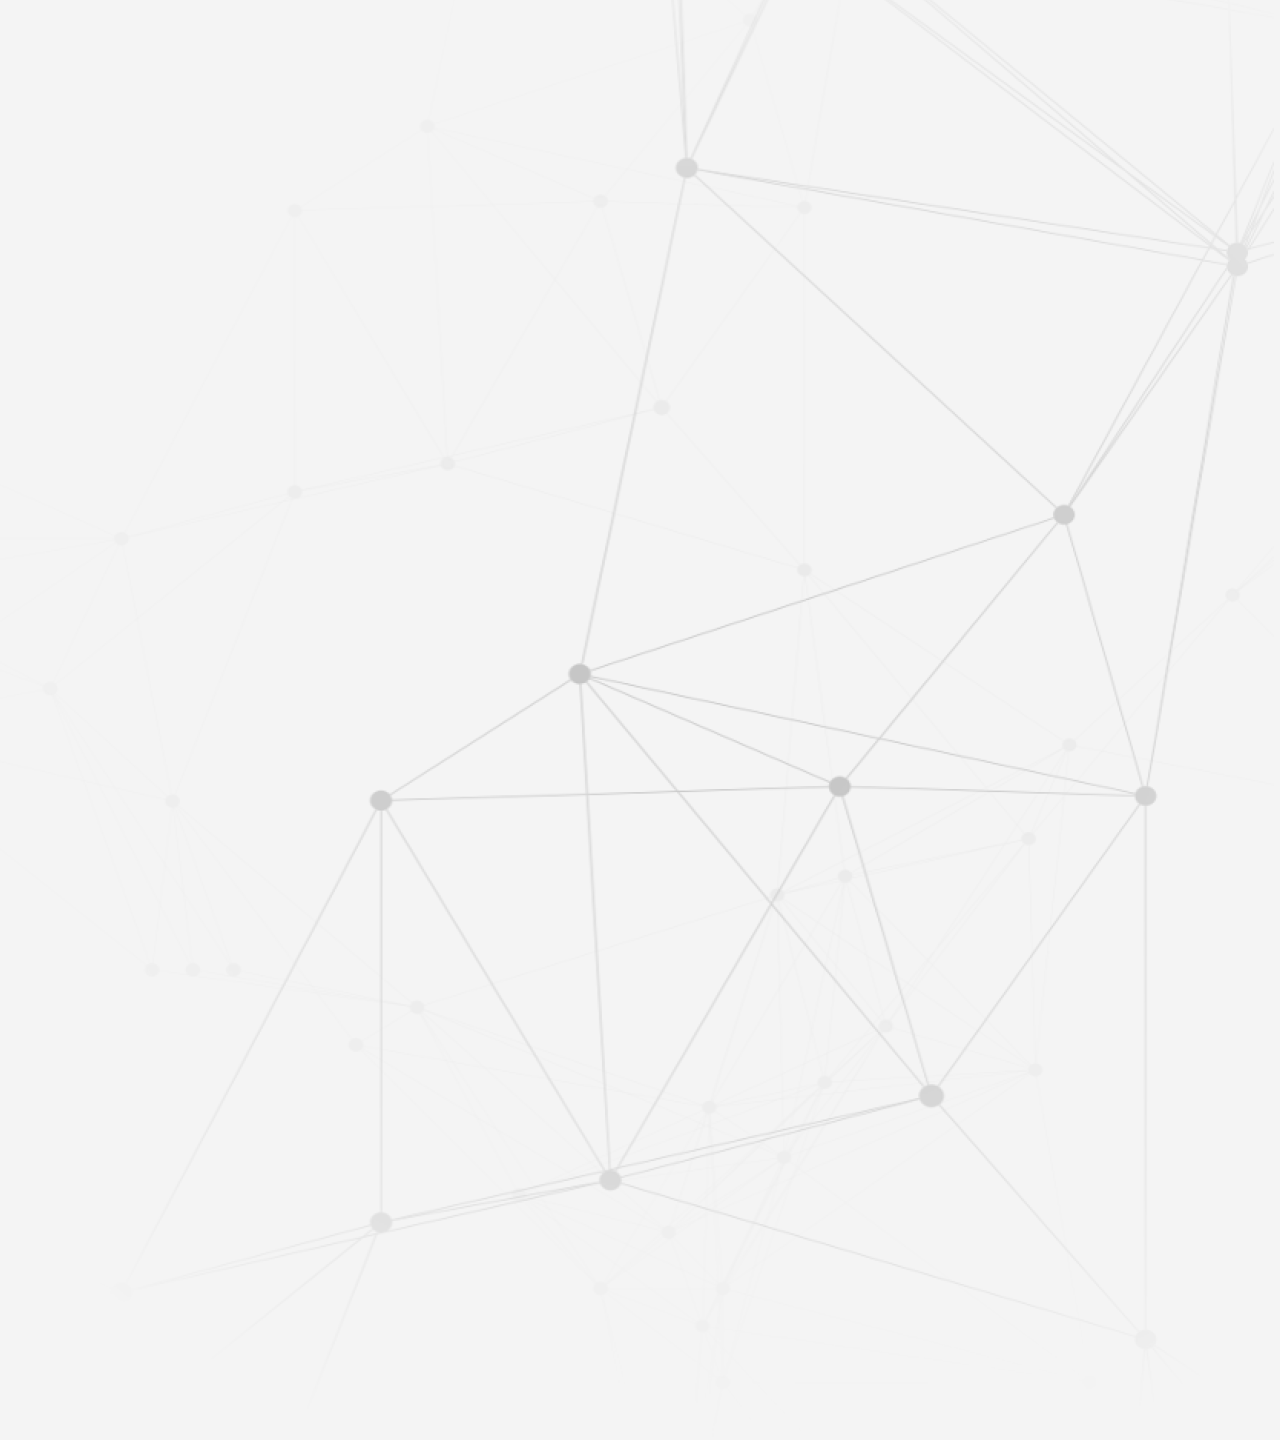

04

ANNUAL EVALUATION

Our annual evaluation is an opportunity to gain situational awareness from our clients on successful deliverables as well as any shortfalls, which may require improvement.
